VICTORIA, B.C., FRIDAY, APRIL 17, 1953 — 34 PAGES

Political Pot

A record number of candidates will be in the field in the June 9 election.

A minimum of 220 hopefuls are expected to tramp the uncertain election trails, compared to 211 in last June's election.

To date, 57 candidates have been nominated. Social credit leads the pack with 21 candidates named, then CCF 14, PC 8, Liberal 6, LPP 5, Independents 2, and Labor 1.

About half the candidates already nominated by the four major parties are newcomers.

The trend towards new faces has shown up markedly in the free enterprise parties.

New nominations: Veteran E. E. Winch, CCF, Burnaby, heading into his 21st year as M.L.A.; Anthony Arnold and Stanley Wilcox, Social Credit, Vancouver East; Arthur Brown, Liberal, Prince Rupert; beat out Jack McRae, former M.L.A.; Douglas Wetmore, 27, Liberal, Rossland; Trail — succeeds former health and welfare minister Douglas Turnbull who has quit politics; Lands and Forests Minister R. E. Somers, Social Credit, Rossland-Trail.

The Christian Democrat Party will run at least 12 candidates in the election.

The organization is described as a "Christian, non-sectarian — but not a Roman Catholic party."

The party's platform does not ask specifically for increased grants to separate schools, but stresses the cost of educating a child in "Christian or neutral" schools should be the same.

W. H. Ryan, registrar of voters, reminded Victorians today they need not check their names on the voters' list if they have been sent postcards informing them they are qualified to vote.

"Some people have been going to registration centres to make sure they are on the list even after we've informed them by postcard they are registered," said Mr. Ryan. "This is unnecessary and a waste of time."

He said persons wanting to register should not go to the registrar of voters' office at 910 Gordon Street. They should go to their neighborhood registration centres located in business establishments. Addresses have been published in papers.

Mrs. May Campbell and William Caird, unsuccessful CCF candidates in Victoria last June, will allow their names to go before a party nominating convention April 27.

Colin Cameron, another candidate last year, is being pressed to seek election, but has given no decision yet.

Rev. Harry Francis, the scored M.L.A. who resigned his seat to allow Finance Minister Einar Gundersen to try for election last November, has been nominated in Revelstoke riding.

Dr. Norman L. Goodwin of Sooke will allow his name to go before an Esquimalt Progressive Conservative nominating meeting soon to be called.

Police Nab 19th Dope-Ring Suspect

VANCOUVER, B.C. (BUP) — The Royal Canadian Mounted Police today nabbed the 19th suspect in Canada's biggest round-up of dope peddlers.

Police arrested Stephen Theohares, 27, of Vancouver, who was among a handful who escaped the roundup that saw 28 arrests Wednesday and Thursday.

Theohares appeared in court today for a one-week remand with the other suspects who were arrested on evidence supplied by an undercover agent known only as "Mountie X." The agent lived in Vancouver's underworld for two months as a drug addict.

The agent's name was expected to be disclosed with the unfolding of evidence at the trials of the suspects next week.

Esquimalt Home Collapses

Baby Steven Burns (lower left), came close to death when the porch roof of his 510 Gore Street home crashed down on his carriage. He wasn't touched. Top picture shows earthquake-

result when 60-year-old house slid off foundations. The mangled baby carriage is pictured, still squeezed by the wreckage. Baby's mother is looking for new house. Father's in Korea.

INFANT ESCAPES DEATH BY INCHES

Carriage Crushed When Home Collapses; Screaming Mother, Child Escape by Window

A year-old baby escaped death by inches today when an Esquimalt home collapsed.

A carriage in which the baby was sleeping was crushed and twisted when a porch roof fell, but the infant was unharmed.

The near disaster saw the small home of Mrs. E. Burns, whose soldier husband is in Korea, fall sideways from its 60-year-old foundation. Sewer pipes were torn from the ground. The chimney toppled.

Another child, Sandra, 4, was playing in the front yard.

"I was on the phone when I felt the house shudder," said Mrs. Burns. "A second later the whole house fell. I remember screaming and fighting with the front door to reach my baby."

"The door was jammed... but somehow I forced it open and found Stephen. He wasn't scratched. The carriage was tipped over though and crushed."

The plucky young mother took her child in her arms and screamed through a window to three passing soldiers, telling them to help her find Sandra. Sandra was found safe by a neighbor.

The soldiers helped Mrs. Burns out through a kitchen window with the baby, then entered with a neighbor, R. Brophy, to extinguish a fire in the kitchen range.

A sister, Mrs. D. Mortimer, shared the home. Her husband too is in Korea. Mrs. Mortimer, an Eaton employee, was at work when the accident happened at 10.45 a.m.

Mrs. Burns feels that plumbing done by the landlord, F. Lawrence, may have precipitated the collapse. "He was working under the house just the other night," she added. "... banging the pipes pretty hard."

Loss at the Jockey Club alone is estimated at \$4,200,000 — including rare old masters' paintings and a 50,000 volume library.

The riots in which at least six persons died were touched off by two bomb explosions Wednesday at a mass political rally where Peron was addressing 100,000 supporters.

Forty-five more merchants are under arrest today in Peron's nationwide crackdown on corruption — bringing to 667 the number of alleged profiteers jailed since the president started his campaign against rising living costs a week ago.

WIRE BRIEFS

Gromyko Going Home?

LONDON — Reports say Soviet Ambassador Andrei Gromyko is being called back to Moscow.

It's said Jacob Malik probably will succeed Gromyko as ambassador to Britain.

There also are reports that Georgi Zarbin, the Russian Ambassador to Washington, may likewise be replaced.

Malan to London

CAPETOWN (BUP) — Premier Daniel Malan and his wife will attend the Coronation.

During Malan's absence, Lands Minister J. G. Strydom, widely regarded as the 79-year-old prime minister's successor, will be acting premier.

RAF Plans Polar Hop

LONDON (BUP) — The British Air Ministry says student flyers of the Royal Air Force will make four flights over the North Pole next month from the Canadian Air Force base at Resolution Bay.

RCAF Injured Recover

LONDON (CP) — Six RCAF officers injured in an emergency landing in Germany early this month are all believed out of danger, it was reported today.

Trained in Crime by Father

NEWARK, N.J. (UP) — Police filed murder charges today against a 15-year-old boy who confessed he killed two men in an Elizabeth, N.J., tavern during a hold-up masterminded by his father.

Murder charges also were filed against the father, an ex-convict who trained his son in the arts of crime.

Michael Monahan, arrested earlier this week in an attempted robbery at Verona, N.J., shocked detectives Thursday night when he told calmly how he shot a bartender and a customer to death in the \$53 hold-up of the Shamrock bar at Elizabeth last March 7.

The boy said his father, Eugene Monahan, 44, was acting as lookout in front of the tavern when he did the shooting.

Sebastian Welland, 63, bartender at the Shamrock, and William Biskin, 25, his only customer at the time of the hold-

up, apparently were shot in cold blood. Police said there were no signs they had put up a fight. There were no witnesses to the shootings, however.

Young Monahan, when he was arrested Tuesday at Verona, told startled authorities he and his father had committed 150 robberies in various New Jersey cities, most of them burglaries.

The father was picked up later Tuesday and a large quantity of loot was found in their home.

The boy said his father instructed him in the skills of picking locks, jimmying windows and putting burglar alarms out of commission.

U.K. BACKS U.S. CHALLENGE TO REDS

Churchill Lauds Eisenhower's Call for Peace; Speech a 'Magnificent Statement'

GLASGOW (Reuters) — Prime Minister Churchill tonight wholeheartedly supported President Eisenhower's peace call to Russia.

In a speech to a mass meeting of Scottish Conservatives, Churchill welcomed the "massive and magnificent statement of our case by President Eisenhower, who has set forth the range of practical issues which divided the world."

Churchill added that Eisenhower had made public the resolve of the free nations, "headed and sustained by the great power of the United States," not to weaken their defensive measures until an honorable settlement was reached.

"But he had closed no door upon sincere efforts to reach true world peace by good faith and goodwill," he said.

AUGUSTA, Ga. (UP) — A White House spokesman revealed today that the administration is taking immediate action to drive home the peace "offensive" President Eisenhower launched Thursday.

He said cabinet officials and Republican congressional leaders will make a series of statements in the next few weeks "to put the full force of the free world" behind the objectives the President outlined.

In Washington, informed sources said the campaign also would be designed to maintain the initiative in the cold war and at the same time convince

Russia that the President's program is sincere, not merely propaganda.

President Eisenhower challenged the Soviet Union Thursday to end the war in Korea, agree to disarmament, and unify Korea and Germany to prove its peaceful intentions.

He outlined the U.S. terms for a cold war truce in a major address before the American Society of Newspaper Editors.

He was suffering from a "slight attack of food poisoning" at the time and went to bed as soon as he returned to national golf course cabin here Thursday night.

Terms Felt Too Much for Russia

Diplomats in Washington said these terms will be too much for Russia to swallow unless it genuinely wants world peace. They can't see the Communists giving up North Korea, East Germany and the satellites in eastern Europe but they refused to make any hard predictions, pending developments at world trouble spots.

These experts saw little evidence in the speech that would suggest a face-to-face meeting in the near future between the President and Russian Premier Georgi Malenkov. They said the address was aimed at "substance rather than procedure."

The White House spokesman said the President was embarked on a "complete offensive" to put the President's declarations across throughout the free and Communist halves of the world. These were some of the highlights:

Voice of America — The President's words are being sent by the Voice of America to Soviet, satellite and free countries around the globe in 45 languages.

Allies, Reds To Talk About Truce Parley

MUNSA, Korea (AP) — The United Nations and Communists today agreed to hold a liaison meeting Sunday to discuss resumption of the long-suspended Korean armistice talks.

The agreement came less than 15 hours after the UN told the Reds it was ready to reopen the talks, providing the Reds do not stall on the overall exchange of prisoners — the last big obstacle to an armistice.

Allied spokesmen said the liaison groups probably would do little more than discuss the technical details of resuming full-scale armistice talks.

Attacked

World famous violinist Jascha Heifetz suffered a painfully injured right hand when attacked today by an unidentified fanatic at Jerusalem, shortly after he had played a sonata by Gershw.

The musician's hand, struck by an iron bar, was reported so painful it appeared doubtful whether he would be able to continue his recital series in Israel. Music by German composers is unwelcome in Israel because of the Nazi ban on works by Jews.

BY DON INGHAM
Times Staff Reporter

Denial that British Columbia's lumber industry is in prosperous times has been made by a spokesman for coastal operators.

A statement was issued Thursday by John Billings, manager of Forest Industrial Relations Ltd., following preliminary contract talks with the International Woodworkers of America (IWA).

"The UK market is down to a fraction of what it was this time last year," he said on behalf of the 160 operators F.I.R. represents.

"Order files are substantially lower and prices in all markets have declined steadily since the last negotiation, and are still dropping with no indication that the bottom has been reached."

Union negotiator Carl Winn said on the eve of the negotiations, which will get under way again Monday, that there should

be no trouble in bargaining because "the lumber market is good and lumber firms have a heavy order file on hand."

Thursday's meeting was completed in a little more than an hour, during which time the IWA negotiating team formally submitted demands for 32,000 woodworkers. The operators have not yet replied to the union demands and are not expected to for a couple of days at least.

The IWA is seeking an increase of 15 cents an hour, six additional paid statutory holidays for a total of nine, loggers' time to and from distant jobs, and union shop security.

The union feels its demands are justified, and are for no more than conditions enjoyed by other workers in the province. A hypothetical rigger in a coast logging camp might give the following answer if asked what he thought about the demands:

"The fight against cancer and what Canada is doing about it, is the subject of a full-length article in 'Weekend Picture Magazine' in The Times Saturday."

In common with medical men of other countries, researchers in Canada are studying the cells which form life itself in their endeavor to find the remedy.

Canada had the world's first cobalt bombs to combat cancer — one of them now in Vancouver — and Weekend staff writer Jacqueline Moore tells what has been accomplished with them.

Tommygun-Led Crew Gets Away With About \$2,000

Three masked gunmen held up the Oak Bay branch of the Bank of Commerce at 1.30 p.m. today.

They scooped up about \$2,000 from a teller's cage, according to reports.

Oak Bay Police Chief Hugh Reston told the Times at press time he had few details of the robbery but "they got some money and made a get-away."

Two of the gunmen were armed with revolvers and the third carried what appeared to be a tommygun.

No shots were fired. There was only one customer in the bank at the time.

The get-away was made in a late-model car left standing outside the bank.

An eye witness said the car was green in color and police were given a license number.

It sped easterly on Oak Bay Avenue after the trio of gunmen rushed from the bank.

Employees in the Bank of Montreal, a few doors away, saw nothing of the hold-up.

But a witness saw a green car parked outside the bank, took the license number as it raced away to the east and gave it and the description to police.

The pursuit was not long delayed, bystanders said. The gunmen ordered bank manager K. W. Brown, three employees and the customer to lie flat on the floor. While two stood guard, the third went to the cash drawer in a teller's cage and scooped up the money.

It was all U.S. currency, police said.

WORLD REACTION TO EISENHOWER SPEECH

(COMPILED FROM CP, AP DISPATCHES)

Western leaders were quick to comment today on President Eisenhower's challenge to Soviet Russia to prove its peaceful intentions to the world. Here are some of them:

OTTAWA (CP) — External Affairs Minister Pearson today described President Eisenhower's foreign-policy speech Thursday as "a very important statement indeed" and took the unusual step of reading parts of it into the Commons record.

LONDON (AP) — President Eisenhower's peace program heartened Western Europe today.

Many expressed doubts of Russia's reaction. But there also was a swelling tide of hope that the new rulers in the Kremlin might use this moment to relax the East-West conflict.

Top Western officials were unanimous in their praise of the speech.

LORD ISMA, secretary-general of the North Atlantic Treaty Organization, called it a "most important, most noble and most moving" speech.

FRENCH PREMIER RENE MAYER said Eisenhower had presented clearly the real aims of peace.

ITALY'S DE GASPERI described it as "honest and strong."

And halfway across the world, Richard Casey, Australian contribution to the relaxation of international tension.

NEW DELHI (AP) — India's vice-president, a former ambassador to Moscow, has proposed that Russia abolish Soviet communism's international arm — the Cominform — as a sign of its peaceful intentions.

Canada's New Carrier To Cost \$70 Millions

OTTAWA (CP) — Canada may have to spend more than \$50,000,000 to equip her new aircraft carrier, Bonaventure, with aircraft and to maintain adequate reserves of planes on shore, Defense Minister Claxton estimated today.

He told the Commons that the carrier, being built in Britain, will require about 120 planes, including reserves, and that this type of aircraft cost

about \$500,000 each. The carrier, he estimated, will cost about \$20,000,000. Normally a ship of this kind would cost about \$35,000,000 at current-day prices, but Canada was getting the flat-top cheaper because she ordered it when partly completed.

This price, of course, did not include aircraft, which will increase the price to more than \$70,000,000.

U.K. MARKET FRACTION OF LAST YEAR

Operators Deny Woods Industries Prosperous

This is the third and last in a series of articles giving perspective of the current IWA-management negotiations in the forest industries.

BY DON INGHAM
Times Staff Reporter

Denial that British Columbia's lumber industry is in prosperous times has been made by a spokesman for coastal operators.

A statement was issued Thursday by John Billings, manager of Forest Industrial Relations Ltd., following preliminary contract talks with the International Woodworkers of America (IWA).

"The UK market is down to a fraction of what it was this time last year," he said on behalf of the 160 operators F.I.R. represents.

NEW RULES

Them defense exercise casualties look tough but wait'll y' see th' results o' th' election campaign.

Ike's speech proved one thing — y' kin no more kill man's hope than y' kin stop spring flowers comin' up.

Socredly speakin' I'd rather be Wright than mayor.

ON THE TIMES

By ART STOTT

Overhead a wedge of geese swings northward into a grey sky above the strait. On the bay a few stragglers left from winter's duck colony fidget restlessly. Nature is telling her own story of the seasons.

On a raft anchored close to shore at the low mid-day tide a scap, fat and placid, gazes at a butterball, fusing in the water and adjusting the black-and-white evening clothes that form its plumage.

There is a matronly, club-woman air about the scap, a sense of self-importance untroubled by tarrying too long.

But even for the scap, the butterball and the few other late-leavers who save the bay from desertion at this time, the days are numbered. Soon, too, they must lift into flight to nesting grounds, drawn by that impulse no human understands.

Their fellows have scattered, leaving the roost on the weathered raft lonely. No longer are the close flocks of waterfowl riding behind headlands when the wind blows. Seldom does the harsh cry of startled birds break the night stillness.

The winter sanctuary has lost its appeal. The call of the nesting ground is strong. Only occasionally do travelers drop in to rest, cruising on the bay and foraging before resuming their journeys into the north and eastward beyond the coast mountains.

Pan-Handling Mallards

Among them came two brant this week, long-necked, wary, small salt-water cousins of the Canada goose. And still calling on friends around the shore are two mallards, aristocratic pan-handlers who have come to know the charity of waterfront residents. Not quite wild, not quite tame, they willingly accept the crusts and scraps thrown to them as they cruise the rocks that rise from deep water.

But the black ducks, the white wing and surf scooters, have gone, rising without warning to line out on whistling wings to breeding grounds in some fresh-water marsh beyond the Rockies. And with them have left the bluebills, heading to a northland they favor for nesting.

There are still some butterballs, or buffleheads, riding the surface of the bay, resting and foraging before they make their mystery flights to destinations from Alaska to Ontario and the tree-holes in which they lay their eggs.

Noisy the bay's population will narrow again to the crowds of sooty gulls who hold summer and winter congress there, fighting for shellfish, arguing their scavenging rights and of fending the dignity of a scholarly but impecunious heron who comes to fish and show his upper-class disdain for the roisters.

The gulls will dominate by sheer numbers, having their quarrelsome way, and over-riding the marbled murrelets, those impertinent small ducks who live about this shore all through the year.

Shy While Changing

But now even the murrelets seem less numerous as if, changing plumage from winter's black and white, they withdraw from view until the transformation to marbled brown is complete.

Some vital element seems to have left the bay listless since the emigration of the birds. A strange quiet has fallen on it which even the gulls observe. It seems a time of waiting, of restlessness, which it is.

Soon now the shores, which so recently bore the track of waddling ducks' feet on wet sand, will echo to the shouts of children. Soon the water, broken on calm days by the arrowheads of seabirds' progress, will furrow to the prows of small boats. Soon summer will bring that artificial activity humans add to a scene dominated by nature during the winter months and due back in nature's tenancy a few short months from now.

Montgomery Sees Attack Via Northern Route as Remote

OTTAWA (CP)—Field Marshal Viscount Montgomery has suggested a supra-national body to direct Western policy in the cold war.

At the same time, the deputy-commander of North Atlantic Pact powers in Europe said attack on North America across the North Pole is unlikely compared to other danger areas.

The West, he told a press conference Thursday in the parliamentary press gallery, needs a "clarion-like call" on its political aims in the cold war. Western policy was "negative and defensive" while Russia's was "positive and aggressive" and for this reason the West was wasting and dissipating its military strength.

He proposed regional alliances, along geographic lines, similar to the North Atlantic Treaty Organization, with an

Three Firms Join Forces to Find North B.C. Ore

VANCOUVER (BUP)—Three major mining companies have scheduled extensive exploration in northern B.C. this spring in the hopes of finding large copper and lead deposits.

The surveys will take place at Unuk River, approximately 140 miles north of Prince Rupert. The Unuk flows into the Alaskan Panhandle.

Engaged in the exploration program Pioneer Gold Mines Ltd., American Standard Ltd. and New York-Alaska Gold Dredging Corp. Pioneer's managing director Howard T. James says the Unuk exploration is only the first of a series of ventures by the three companies in an endeavor to establish profitable mines.

LESS DRINKING?

HUNSTANTON, Eng. (CP)—Col. Graham Richmond, president of the Norfolk branch of the British Legion, says the "nightly pint" is a dying habit because the young Briton drinks less than his father.

FURNAL NOTICE

An Emergent Communication of British Legion, No. 11, A.F. & A.M., will be held at the Masonic Temple, Douglas, B.C., on Friday, April 18, 1953, at 12:45 p.m., for the purpose of electing the members of the lodge.

By order of the Worshipful Master.
G. G. GREEN, P.M.
Secretary.

Socreds Scoff At Tory Hint Of Coalition

Solon Low Puts Damper on Drew's Suggestion for Union in Commons

By VICTOR MACKIE, Times Ottawa Correspondent

OTTAWA—Solon Low, Social Credit leader in the Commons, has told newsmen that there is no possibility of the Social Credit group joining the Conservative Party in any coalition in the House of Commons.

He and M. J. Coldwell, CCF national leader, were asked to comment on a statement by George Drew, Progressive Conservative opposition leader. Mr. Drew has declared that "differences between his party and the other opposition groups are merely details which can be dealt with later."

Mr. Coldwell and Mr. Low agreed that policy differences between the Progressive Conservative official opposition party and their own respective groups are "fundamental and irreconcilable."

Mr. Drew's statements were made during an appeal for united support for the Conservative party as the "only alternative to the Liberal government" in the coming general election.

Mr. Low said, "Mr. Drew is absolutely wrong when he claims the policy differences between the Conservative and Social Credit parties are merely details which can be settled later. The policies between the two just can't be reconciled and there is no sense talking about it."

Mr. Drew made it crystal clear in a speech on the Social Credit amendment in the throne speech debate at the beginning

of the current session that his Conservative party could not possibly accept the monetary reform policies which the Social Credit party advocates.

"I have stated before and I repeat it again now that whatever may be the results of the forthcoming general election there is just no possibility whatever of the Social Credit group joining the Conservative party in any coalition in the Commons."

"The Social Credit group intends to operate on its own in the coming federal election and is determined to elect as many MPs as it can from as wide an area in Canada as possible," Mr. Low said.

Mr. Coldwell's comment was: "The policy differences between the CCF and other parties in parliament are fundamental. The CCF group is a democratic Socialist party which believes that social security measures must be completed by a national health program and other social benefits needed by incapacitated persons, etc."

"The CCF believes that such a program must be supported by a sound economic foundation involving careful planning and public control of the development of Canada's natural resources in the public interest."

CORPORAL JENKINS

Canadian Corporal Among PWs To Be Repatriated

TORONTO — A captive of Communists, Gnr John Orval Jenkins of Hamilton, Ont., a member of the Royal Canadian Artillery, has been named as one of the 600 Red-held prisoners to be repatriated in the prisoner exchange program now being negotiated at Panmunjon, Korea. He is the only Canadian on the list which includes 150 Americans. The Allies have offered to return 5,100 North Koreans and 700 Chinese prisoners to Reds.

INTER-COMMONWEALTH

LONDON (CP)—Forty-seven per cent of Britain's imports during 1952 came from countries within the British Commonwealth, the House of Commons was told by G. P. Thorncroft, president of the board of trade.

Reds Ease News Censorship Since Stalin's Death Says Reuter's Head

TORONTO (CP)—Moscow has eased its censorship on news since the death of Stalin, Sir Christopher Chancellor, general manager of Reuters, world-wide British news agency, said Wednesday night.

Addressing the annual meeting dinner of the Canadian Press, attended by newspapermen from coast to coast, Sir Christopher said "no wise man would make any far-reaching deductions" as yet, but there were dramatic signs of a more civilized approach which have been interpreted as a probing towards some sort of entente with the west. He added: "For my part I cannot help feeling a little alarmed by the speed with which in certain quarters a few merely normal acts by Moscow seem to efface the memory of all that has gone before."

"However, since Stalin died, all our cables from Moscow have come through without any signs of censorship; and telephone calls, for the first time almost since we can remember, have been free from interference."

"My chief news editor finds himself asking leading and significant questions over the telephone which a month or two ago would immediately have resulted in the line being cut. These conversations proceed for the present unhindered. They grow bolder each day."

"It is all very interesting; but we do not yet know what it signifies or where it will lead. The recent visit to Russia of American newspaper edi-

tors and the facilities given them left us all gasping and astonished—that is, all of us who have had to battle during these past 10 years with the problem of covering Russia."

Describing Moscow censorship as it has operated up to recently, Sir Christopher said it blew hot and cold.

Sometimes it was so rigid that messages, seemingly innocent, even timid, failed to arrive in London. At other times—and for months on end—everything would come through. "All of us here believe in press freedom and are prepared at all times to fight for it," he said.

One of Prince Edward Island's finest harbors is Georgetown at the Montague river on the southeast shore.

The Officers and Members of Victoria Area No. 12, Fraternal Order of Eagles are requested to attend the funeral of our late Brother, W. G. Thorne, at McCall's Funeral Home on Saturday, April 18, 1953, at 1:30 p.m.

Liberal Chief Says Socialist Labor's Enemy

Proud of His Party's B.C. Record, Laing Calls for Re-Formed Ranks

Election of a Socialist government in B.C. would do labor nothing but harm, Liberal leader Arthur Laing said in an address to the Oak Bay Liberal Association nominating meeting Thursday night.

"The Liberal party is the best friend labor has ever had," said Mr. Laing.

The recently elected leader was winding up a day-long visit to the capital. He had held a press conference in the morning, attended a Rotary Club luncheon at noon, and addressed the Laurier Club earlier in the evening.

He told the Oak Bay meeting Great Britain was a good example of the treatment labor received at the hands of a Socialist state.

After the government took over the railroads, he halted unions asking for more pay and less working hours were told they were facing a situation

which would give them less pay and longer hours.

"That's what a Socialist state did for labor," said Mr. Laing. Progressive labor legislation introduced by Liberal governments is second to none, the leader said.

"In matters of human betterment we can be proud of the record of Liberalism," he said. Quoting newspaperman Dillon O'Leary, Mr. Laing said the CCF was formed as a party carrying the torch of the underdog and the common man.

"Due to the Liberal administration, there is no longer any torch to carry," he said.

He felt the people are well satisfied with the progress Liberal governments have made in social security measures.

Right Candidates First Concern

Mr. Laing, dealing with his party's position in B.C., said:

"We Liberals shouldn't be downcast because some people came in here 18 months ago and convinced the people the world is flat."

"Give me the finest candidates you can—candidates with knowledge and integrity and Liberal background and inclination—and we'll make a showing in the next election which will surprise a lot of people."

"Liberalism is still very much alive in B.C. This province by its very nature is inherently Liberal in its outlook. We can get a lot of our former supporters back with the right kind of effort," he said.

He saw a danger in what he termed lack of dignity in the B.C. Legislature. Such conduct, he feared, will keep capable persons out of politics and the province will suffer when the House is composed of persons of "no consequence."

The leader complimented the six-man Liberal group in the House for displaying great statesmanship and stature.

"How many persons could have sat there and taken the abuse they did for as long as they did?" he asked. "The people of B.C. won't forget the sense of responsibility displayed by them."

Mr. Laing noted an inclination on the part of the Social government to change things just for the sake of changing them because they had been instituted by another government.

"It's no use changing a thing unless it's to improve it," he said.

He said it's a "dangerous thing when a government attempts to govern by prejudice." "We've had some of that in B.C. already, and it must be stopped," he said.

He didn't elaborate.

Would Boost Agriculture Production

Mr. Laing said immediate consideration must be given to the problem of declining farm land around the province's cities.

He said British Columbians consume annually \$62,000,000 worth of B.C.-produced food, but must import \$84,000,000 worth.

In thanking Mr. Laing, former Liberal House leader E. T. Kenney, who is quitting politics, said the people have found out the Social Credit party "barren of ideas and is simply a revolution within the Progressive Conservative party."

"The rebels in the Tory party obtained power, but in the Social Credit party. Those traitors will be the victims of tactics used by themselves," he said.

In an earlier address to a Laurier Club dinner meeting, the largest ever held, Mr. Laing discussed the position of Canada in the Commonwealth.

He said the Commonwealth's value is that it has benefited free men in all parts of the world, in addition to those in its member countries.

Effect of the Crown, he said, is that it has brought a sense of unity, fairness and justice which couldn't be possible under anything but a monarchical system.

Mr. Laing was introduced by former premier T. D. Pattullo, who said the new leader is well equipped for the leadership, and a man who has given constant thought and time to public problems.

South Africa's Negroes See Little Hope

Hopeless in the face of an election that did not allow them to vote, South African colored people showed their principal aim in Wednesday's voting by placards which said: "Freedom in Our Lifetime." White South Africans gave Prime Minister Malan a strong man-

date to maintain white supremacy by means of strict racial segregation. Nearly complete returns for the 159 seat House gave Malan's Nationalist Party 87 seats against 61 for the United-Labor Party coalition.

ALTA. WHEAT HEAD HITS B.C. STRIKERS

Vancouver Grain Handlers Paid Top Wages For Work a Farm Boy Could Do, Says Plumer

CALGARY, Alta. (BUP)—Ben S. Plumer, chairman of the Alberta Wheat Pool, says striking west coast grain handlers are doing a job any farm boy could but are being paid some of the best wages in Vancouver and New Westminster.

Plumer sent a wire to Prime Minister Louis St. Laurent Thursday in which he asked for a government crack-down on the strikers' after explaining the Wheat Pool's position in the wage dispute which has stalled shipments of grain out of the British Columbia ports since Feb. 16.

"Pool employees at Vancouver are getting some of the top wages paid in the city, although most of them are unskilled workers doing a job any farm boy could perform after a few days' training," he said. "Outside of watchmen, the workers receive \$1.50 an hour

for a 40-hour week, with time-and-a-half for overtime." Plumer said the Alberta pool had tried to end the dispute, affecting 350 grain handlers, but three proposals submitted to the union had been rejected with no counter proposals.

The position of the pool, which has 50,000 members in Alberta and is supported by the

A Question Plainly Put

IN HIS HISTORIC SPEECH yesterday President Eisenhower said what the U.S. is willing to do and asked what the Soviet is willing to do. The answers to be given may well determine whether this generation is to have peace or a world war.

Most of the concepts expressed by the U.S. President were not new. They have come up in various ways in past pronouncements by western political and military leaders. But they were put in a form and delivered with directness that gives them added emphasis. They opened new horizons in certain directions and set limits in others. They contained nothing to which a nation sincerely concerned with the preservation of world peace could object. But they called for a measure of international co-operation and good will which many years in the future.

The alternatives consequent upon outright rejection were clearly set forth—at worst atomic war and at best unending fear of "humanity hanging from a cross of iron." Such prospects could have little attraction even for a nation determined to achieve world conquest for its ideological doctrines.

On the other hand, Mr. Eisenhower's proposal opened up genuine hope for humanity if peace—and consequent disarmament—could be achieved. For he pledged the efforts of his government in that event to ensure that many of the billions now spent on national defense would, through the pooled contributions of all nations, be spent on defeat of "the brute forces of poverty and need."

There, indeed, is a new kind of foreign aid; a new, practical con-

cept of "one world." But it would have to be unanimous in application; it entails a view of the brotherhood of mankind perhaps not possible for those who see humanity as merely the raw material of the state, the individual as merely a unit in the sum total of the nation.

The Eisenhower proposals were evoked by the recent signs that, as the President put it, "an era ended with the death of Joseph Stalin." The conciliatory measures that have marked the few weeks of the Malenkov regime—the suggestion for return of Korean prisoners, the release of political prisoners in Russia, the willingness to discuss the German air corridor, the softer tone in UN conferences—provide a background of encouragement for yesterday's address.

But the reception of the President's plan by the Communist world—the treatment it receives, rather than the words that are spoken about it—will be determined by whether the Malenkov "soft" approach is in reality a gesture of friendliness or at least live-and-let-live, or which is already feared by the west, merely a disarming tactic, a new method of achieving the planned destruction of the democracies.

For months now the Kremlin has cried peace, peace, and the cry has been echoed by its agents, followers and dupes around the globe. The issue has now become more than a propaganda phrase. It has become a decision to be made by the major powers of the world. It has been put on a practical plane by the Eisenhower invitation in pursuance of the President's policy of taking the initiative in seeking a settlement of the cold war. The world will now await, and judge, the Soviet reaction.

The Addict's Problem Remains

THE RCMP'S SWEEPING round-up of illegal drug peddlers and traffickers in Vancouver strikes a critical blow at one of the most vicious parts of the narcotics evil. These are individuals who, for commercial gain, carry on their black-market operations at an untold cost in human suffering and degradation.

It remains now for the law to take its course against them. Conviction and sentence will not, however, solve the whole problem. All persons and interests engaged in making money from the illegal trade have still to be brought under control and the addict himself must be considered.

Few authorities hold much hope for the cure of most addicts. Some have been weaned from their drug, but the instances of success in treatment are discouragingly few.

Under existing legislation the majority of addicts turn to vice or crime to finance their purchase of drugs. They have to because the prices charged for illegal supplies are prohibitive.

Among addicts, it should be noted, are a large number of criminals. Some of them would be criminals with or without addiction. Others enter crime as the victims of drugs, crimes they feel they must

commit in order to raise quick cash to pay the peddler.

In recent years experts have considered the latter category more as sufferers from a disease than as willful law-breakers. If they are to be viewed as patients—and that seems the reasonable attitude to take toward them—then some form of treatment not now available must be found for them.

The practical suggestion has been advanced that such individuals should be permitted to obtain, through prescription, a minimum supply to meet their needs at prices no greater than those charged for the legitimate sale of drugs. The charge would then be negligible. An addict could meet his needs without resorting to crime and, according to some authorities on the matter, could lead a reasonably normal life, working at a job like a non-addict, and freed of the constant fear of not earning enough legitimately to buy his dosage.

By striking effectively at the peddler and trafficker, the RCMP has removed from circulation people who profit by recruiting more victims to addiction. The police action is a highly commendable step.

But the addict still needs treatment. That appears to depend on enlightened legislation for which there is growing public support.

No Provincial Lotteries

THE CANADIAN PRESS REPORT of Justice Minister Garson's reply to a question on provincial lotteries was brief and to the point. Mr. Garson had been asked if the government intended to amend the Criminal Code to permit them. His reply was "No."

That answer should arrest for the time being continual revival of the question, usually posed in discussion of means to assist hospitals or other welfare services.

The argument in favor of sweepstakes is familiar. It asks why the individual should not be entitled to risk the price of a ticket in the hopes of winning a big prize and, in the process, furnish funds to assist some worthwhile institution. Mention is made of the fact that thousands of dollars leave Canada annually in such ventures as the Irish Hospitals' Sweep. Why, it continues, should not that money stay at home, provide a substantial prize or prizes and assist some of the institutions chronically in need of financial aid?

There are two main answers to the latter question. In the first place sweepstakes violate the moral sensibilities of a great number of Canadians. In the second place, the returns from them, according to statistical analyses, are relatively meagre insofar as the benefiting agency is concerned. That point is emphasized

by reports which show the assistance given hospitals by the famous Irish sweeps—returns computed on eight separate drawings—amounted to only 18 per cent of the money paid by ticket purchasers. In that lottery, presumably a model for its kind, less than one-fifth of the funds went to charity.

Beyond that there is another element that must be considered. When an institution is supported by sweepstakes, the public is inclined to ignore personal financial responsibility for it. A donor who might previously have given from his own pocket to assist such an institution, is disposed to believe its needs are met from the sweep. Financing, in such cases, becomes a matter of chance. Hospitals and other welfare agencies cannot afford to depend on that type of support and are unwilling to lose the backing of consistent donors.

The answers to the argument, assuming provincial lotteries would be used for the purposes suggested above, have been summed up in the comment delivered last year on the question by George Masters, administrator of the Royal Jubilee Hospital: "I know quite a lot about lotteries in other countries, and I don't know of any hospital sweeps that are satisfactory."

Mr. Garson understandably said: "No."

No Man's Land

Chips

BY DAVID BROCK

I WAS reading, a short time ago, that our National Gallery at Ottawa had bought some pictures from an undisclosed European collection, including Rembrandt's "Bathsheba," painted in 1632.

If I had known anything about dates I'd have known this was painted 20-odd years before his more famous "Bathsheba," and must therefore be another one, one far less familiar. But I am a hasty and ignorant fellow, and all I remembered was that the famous "Bathsheba" hangs in the Louvre. And I thought to myself: "Ten thousand crowns! The Louvre has gone bust, and is selling off its gems quietly, as from an unknown source!"

WELL, you must admit that life is far more interesting to us hasty chaps than it is to you more reasonable ones. Indeed, I have a friend who looks forward with impatience to her senility. She says she will doubtless be a great nuisance to others. But for her own part, she will have one long series of unreal adventures and meet fascinating people who don't exist. I hope so. Though obviously she is quite cracked already.

GOING back to Bathsheba. I remember the late Jimmy Butterfield, that gifted and erratic columnist, saying that King David was a halfwit to ruin his morality (not to mention ruining her husband) by falling for her mere appearance. For Bathsheba, said James B., was fat. Fat as a butterball. (Or words to that effect.)

Now, there isn't a word in the Bible to say that the lady was grotesquely obese, or even plumpish. So how did Butterfield get his information? Why, from paintings made about 2,500 years after the poor woman had lost any shape, thick or thin, triangular or spherical, and had turned to dust. That's a simple story, but it pleases me, for there is something very disarming about the appearance of Rembrandt's wife or mistress as evidence for the shape of David's queen.

ALONG about 1890 there was a dear old professor of Bible history at Toronto or Queen's, I forget which, and he used the same argument. He mentioned wagons on some journey of Abraham's, and said "And how do we know they had wagons, gentlemen? Why we've seen the pictures of them." Which proves everything. Instead of being ridiculous, I find that rather sweet.

I fall the same victim of the illustrious myself, or did when I was a child. I can assure you, on the strength of some Bible stories I once owned, that Jacob really looked injured and innocent, while it was his brother Esau who looked like a crook. Sounds the wrong way

round, I admit, but I've seen the pictures.

SIMILARLY, it was at a very early age I discovered that Boadicea, the ancient queen of the Britons, looked remarkably like Lady Macbeth. I was lucky enough to have a very reliable picture of Lady Macbeth, you see. And blow me down if Lady M., in her turn, wasn't the dead spit and image of Ellen Terry. It's a small world, isn't it? As Charles Laughton doubtless remarked when he found Henry VIII and Captain Bligh secretly putting on an imitation of Rembrandt.

WORTH THE CANDLE?

A VISITING skiing champion from Norway was asking the people of Vancouver why their three-year-olds are not taught to ski, and why 75 per cent of the city's population doesn't turn out to ski at all possible moments, as in Oslo. (He sounds as if he wants to make it compulsory.) Only by such stern measures can we beat the boys from Oslo. He should know. He is Stein Eriksen, the Olympic champion.

Well, Stein, old boy, I'll tell you why not. Many chaps in this lethargic province are too busy with their own hobbies to bother devoting all their time to somebody else's. Self-centred of them, but there it is.

If we had 75 per cent of our population playing golf like mad, from the age of three onwards, I bet we'd have some pretty fair golfers, too. But, as with skiing, we'd start to get too serious. Which isn't always a good thing.

IF HARVARD indifference has made Harvard what she is, then maybe Canadian indifference (or what foreigners take for indifference) has made Canada what she is. It's worth considering, anyhow. And if skiing has made Norwegians what they are, and very nice, too, why, perhaps not skiing has made Canadians what they are, which is also nice.

I realize that Lord Alexander skis for fun, and Lord Montgomery skis to win (two different things?), but we can't all be field marshals. Besides, these two are mad Irishmen. Practically Norsemen, brought up on savage northern seas. We, on the other hand, have all our wilder whims washed away by the priestlike waters of the Japan Current. Pack my skis up Fujiyama, now, and I won't promise you it mightn't be different. If by any chance I don't get up myself, just let the damn things slide down again by themselves. And don't wax them too much... to me, it isn't worth the candle.

PEOPLE WHO LIVE IN GLASS BOATS

THE more I see and hear of small boats made of glass, the better I like them. If I could afford it, I'd buy me one today. All I object to is the theory that you can't scratch glass on rock. On the shore where I live you can find quartz here and there, and at my favorite picnic place there are big veins of it. Ever try quartz on glass, Skipper?

From Our Files

April 17, 1893 — Editorial: The Vancouver World takes credit for having been "the only newspaper in the province to publish copious extracts from the census returns." One of the World's feats consists in counting the Chinese population twice, thereby raising the total population of the province from 98,173 to 107,077 at one stroke.

April 17, 1913 — Oak Bay will have its first postal delivery tomorrow. Three carriers will start at 8.30 a.m.

April 17, 1833 — T. V. Soong, China's minister of finance, will visit here early in May.

As Our Readers See It

QUESTIONS STATEMENT

In reply to the letter in the Victoria Daily Times of April 8, over the signature of A. P. Rayment, secretary-treasurer of Victoria Trades and Labor Council, Mr. Rayment states that they do not take any money from funds to pay for broadcasts on Station CKDA, and that the Labor Council made no such decision. I would like to ask why, on February 11, 1953, at a meeting of the Victoria Labor Council, held on Johnson Street, a statement was made by the finance committee, for January, 1953, under disbursements to CCF joint radio committee of \$5. Meeting was presided over by the president, Robert Smeal, and secretary E. Haw.

G. W. COUSSENS.

439 Superior Street.

REAL AIM

Mr. Thomas Irwin, former Secord Speaker, replying to a letter from Mr. Frank H. Partridge states: "It grieves me that Mr. Partridge should be rash enough to discuss a subject on which he is obviously very badly informed."

With due respect to Mr. Irwin, this subject flippantly known as the Secord "funny money" theory is one on which few people, including most Social Creditors, are well informed. In fact, it is a subject that most Secords avoid when seeking election, very wisely so, as the majority of voters would recoil from the theory if it were clearly explained, and would appreciate the disastrous effect it might have on our whole economy, inevitably leading to the fixing not only of prices, but also of wages and profits.

It would be an excellent thing if more people, like Mr. Partridge, would investigate this, the ultimate aim of real Secords, and one of the reasons that bandwagons are not nominated, as these would not be so prone to be reglemented into acquiescing in so dangerous a policy.

Many people ignore the danger, because the change cannot be instituted until the Secords have federal power, but federal power is just what they are aiming at.

DONALD H. SEYMOUR.

3259 Quadra Street.

'SO MANY THINGS...'

Much is written and printed in the letter column of your paper which seems misinformed (e.g. a letter of a Mrs. Bennett). Mr. Bonner gave us some facts concerning his party recently. No one need remain in ignorance of Social Credit. It may be hard to stretch oneself out of an old mental cramp. Many have succeeded in doing so. Before joining I explored the CCF for warmth and sunshine without success.

At one point we were politically weak in Saanich and I persuaded Social Credit to remain aloof and let the Liberal win. As I was a Conservative then I look for sportsmanship or wisdom from them now. For surely as time passes the CCF ideas lead to dictatorship and the Liberals and Conservatives lag behind on the same road.

Freedom of choice is what S.C. stands for. Let us import what we cannot cli-

matically produce such as good wines from across our friendly border. Freedom is the enjoyment of good things and has no part in restricting choice. There are so many things we can invest in.

Science may find a way but let us have faith, generosity and maintain our desire for freedom.

MRS. A. C. BOYDELL.

4040 Wilkinson Road.

RESTORING PAINTINGS

Recently, a reader asked you how to restore (clean) old oil paintings, safely.

You did not feel able to give a definite answer in your query column.

The enquirer will be quite safe in using theatrical cream. Just dab it on, leave till you think the film of dirt has been softened, then gently and lightly, remove with soft cotton wool, just as you do to your face. Repeat the process as often as needed. You may need to leave the cream on for several days before removing, but there is absolutely no risk of damaging the painting.

This method was told me by an eminent Canadian woman, who watched the cleaning of a batch of very ancient (and valuable) paintings despatched to a Roman Catholic cathedral on the prairies from Rome, many absolutely black.

E. B. W.

Bowmanville, Ont.

(Editor's Note: This process is passed on as received but has not been tested by the Times, which bears no responsibility for results that may be achieved.)

PROVINCIAL POLITICS

I was rather amused on reading a letter in Monday's edition of the Times written by B. M. Baker. This person was taking exception to a letter written by a Mrs. G. A. Bennett, warning of the disastrous results in this province should the Social Credit be re-elected on June 9.

To many people it seems very strange if, as Mr. Baker says, Alberta is so much more prosperous, and in so much better position than B.C., that so many of these "carpet baggers" are anxious to live in such a backward province.

These people fail to tell the real story of Alberta's prosperity. The government reaps millions of dollars from the rich oil fields, and without this industry I fail to see what these discontented newcomers to B.C. would have to talk about.

The Social Credit government in Alberta got in, in the first place, on the promise that every person would get a \$25 a month dividend. They are still waiting. My relatives in Calgary were taken in by this promise and if it were not that their savings were invested in that province they would gladly come to our prosperous British Columbia.

We don't want or need this "funny money" party in our province. After seven months in office the people can judge for themselves just how incompetent they can be and how unsettled things are.

SUBSCRIBER.

A Deadly Danger

BY JOSEPH and STEWART ALSOP from Washington

WITH Sen. Joseph R. McCarthy apparently riding higher than ever, it is time to have a good, hard, realistic look at his real political strength and future as the recent Senate report on McCarthy's financial and other activities. This fanatical support is a vital asset to a man of McCarthy's ambitions.

FOUR. There is no way to stop or silence McCarthy. His opportunities to stay in the news are unlimited. He is now, for example, considering "moving in" on the Central Intelligence Agency, and there are plenty of other opportunities if this does not work out. Moreover, an attempt by the Senate Republican leadership to isolate McCarthy in the Senate would be futile.

USES SENATE It does not really matter whether McCarthy is isolated or not, as long as he can use the Senate as a platform. And in any case, an attempt to isolate McCarthy is extremely unlikely, since too many Senators have compromised with McCarthyism in the past. President Eisenhower, and only President Eisenhower, could cut really seriously into McCarthy's political power. But as time goes on, this will become more and more difficult.

FIVE. Can McCarthy reach the White House? As one shrewd observer put it, the idea "may seem fantastic at first glance, but it would have seemed fantastic a few years ago that he could have toppled a man of the experience and standing of Sen. Tydings. It would be a mistake to assume that he does not have the capacity to rally behind him a well-financed, well-organized party that could take power."

MARKED for READING SYMBOL The Cross, even more than the twisted cross, the swastika or the hammer and sickle, or the dollar sign, reveals sin's tremendous power; but it reveals also that which makes it a gospel: the power of perfect love and faith to take the worst that men can do, and transmute it into goodness.

MARKED for READING SYMBOL

The Cross, even more than the twisted cross, the swastika or the hammer and sickle, or the dollar sign, reveals sin's tremendous power; but it reveals also that which makes it a gospel: the power of perfect love and faith to take the worst that men can do, and transmute it into goodness.

—David A. MacLennan, in "Joyous Adventure."

RUCOLIC

I hated big cities, longed for the sanity of rural life. . . . The smell of warm animal flesh and dung when one opened the goat house doors in the morning. The joy of taking a stick and knocking the heads off nettles after rain and drinking in their intoxicating smell. The pleasure of simply taking a handful of soil and allowing it to run gently through one's fingers. The colossal satisfaction of spending hours quietly digging in solitude or kneeling weeding for hour after hour. The chance to think.

—Douglas Hyde, in "I Believed."

LIBERALS SEND ENCOURAGEMENT TO AILING AMBASSADOR MAYHEW

A "get well" message was sent Thursday night to Robert Mayhew, Canadian ambassador to Japan, by the Oak Bay Liberal Association.

The telegram was sent from the association's nominating convention.

Mr. Mayhew was taken ill suddenly Wednesday and rushed to hospital. His sickness was described as "not serious." Details of the illness were not available.

SHOCKED CITIZENS GLIMPSE HIDEOUS FUTURE

Fearful Cost of War in Human Suffering Shown in Treatment of Volunteer Victims

The hideous effects of modern warfare on a civilian population were brought home to Victorians Thursday night. Not a single shocking detail was omitted.

Fortunately, it was all playing-acting. But to many spectators who viewed the civil defense casualty station display at the Bay Street Armoury, it was hard to remember that fact.

A contributing factor was the stage chosen for the display. If the merciless destruction of a Third World War occurs and Victoria is bombed, it will be into centres like the armoury that the stricken will stagger, crawl, be carried by bloody-handed stretcher bearers.

Hundreds of Victorians gazed down on this too realistic scene... too realistic for comfort.

The procession of broken bodies and sound bodies with minds blanked by terror, continued for over an hour. So realistic were the "wounds" that a feeling of revulsion swept the crowd as the casualty station personnel about the fight with death. So realistic were the frantic contortions of the "wounded" that death seem a blessing denied.

SCENE OF HORROR

There were burns, lacerations, fractures, abdominal wounds with protruding intestines. There were rib fractures where bones stabbed outward through the flesh. There was an eyeball hanging by threads over a shock-grey cheek. There was the retching of radiation sickness. These were a few.

There was even a severe frost-bite, suffered by a woman cold storage plant worker, knocked unconscious in a deep-freeze locker. And, of course, there were the dead.

Perhaps most shocking of all were the hysterical women, screaming names of children dead, dying or disappeared.

No one who saw it will ever forget.

The helpless, shattered Victorians who had been theoretically blasted out of their daily routines in kitchens, playgrounds, offices and workshops came first to the receiving centre where a city doctor evaluated their wounds, sent them to surgery, shock treatment, or the mortuary.

BOY SCOUTS HELP

An emergency feeding unit was crammed with silent, staring people. Boy Scouts kept charcoal burners blazing.

Ambulances and transports awaited the cases passed on to them for transportation to the bus depot, the airport, the hospital, the welfare centre. The organization was ready for the "practice."

Whether it will be ready when the drill becomes reality will depend on the people of Victoria, according to CD speakers who addressed the appalled crowd.

Speaking in support of greater participation in civil defense were target area director L. G. Hatcher, Lieut.-Col. W. J. Mosedale of the Canadian Scottish, Dr. J. L. Gayton, local director of CD health services, and Dr. T. Patterson, provincial CD health services director, who also acted as commentator.

But really nobody needed to speak... the horror spoke for itself.

WEATHER SYNOPSIS

VICTORIA'S SUNSHINE RECORD TO DATE, 1953—366.5 HOURS

SYNOPSIS: A slow-moving tongue of moist air brought showers to the southwestern corner of the province Thursday night. Elsewhere through B.C. skies were clear or nearly so.

A storm centre several hundred miles off the coast is moving northward into the Gulf of Alaska. The outer edge of the cloud associated with this storm is expected to reach the coast this evening and a few showers are looked for overnight.

DOMINION PUBLIC WEATHER OFFICE & A.M. FORECASTS

VICTORIA: Cloudy Saturday with sunny intervals in the afternoon. Little change in temperature. Winds light. Low-high 43 and 56.

WEST: Clearing over in the early evening. Showers overnight. Variable cloudiness Saturday. Little change in temperature. Winds light. Low-high 43 and 56.

VANCOUVER AND GEORGIA STRAIT: Cloudy Saturday with a few showers in morning. Sunny periods Saturday afternoon. Little change in temperature. Winds light. Low-high at Vancouver airport and Nanaimo 42 and 56.

STOMACH TROUBLE!

(Diagnosed as Hyperacidity)

Scientific Method **FREE** Thousands

Canadian Chemists Develop New Product Successfully

What Do You Know?

Before scoring yourself on the quiz below, remember that it is foolhardy to diagnose your own ailment. If you have been assured by a physician that your stomach trouble is caused by hyperacidity, read on...

	YES	NO
1 Do you have to be careful in your choice of food?		
2 Do you take some common alkalizer, mint or soda without getting relief?		
3 Do you currently suffer from either heartburn, gas, pain, soreness or general distress after eating or during the night?		
4 Wouldn't you appreciate a preparation that actually prevented your symptoms occurring?		

Adren chemists searched for over a year to find a combination of ingredients that would be fast-acting, long-lasting in its effect and therapeutically compatible. **EXECUTABS** is the result! By actual laboratory standards **EXECUTABS** is the most effective of all stomach preparations tested.

An Excitab before eating prevents discomfort after.

WARRANTY—If taken for a condition or symptoms of diagnosed hyperacidity, and it fails to give satisfaction by the time you use half the package, return the remainder and the purchase price will be refunded.

Toronto Base Metals Touch 2-Year Low

TORONTO (CP)—Prices continued to dip with base metals in the lead toward the stock market's close today. The metals dropped to their lowest point since October, 1950, with a loss of more than two and one-half points on the exchange index. Industrial and western oils touched their lowest points of the year and gold continued weak.

One of the few significant gains in base metals was Ascor, which added pennies in a turnover of more than 225,000 shares. Hudson Bay led higher-priced issues lower with a loss of \$1.50. Cassiar, Falconbridge and Sherritt Gordon also slipped.

Oils Drop in Dull Session

Oils drifted down during a dull forenoon session on Vancouver Stock Exchange. Chief lower was Peace River Natural Gas which fell 40 cents to 7.50. United dropped seven to 1.26. Continer 1 was down four at 1.26 and York lost a penny to 31.

Mid-Session Sales Send N.Y. List Down

NEW YORK (AP)—A flurry of selling at mid-session sent the stock market lower today without uncovering unusual weakness in the list. Activity was pronounced in steel, motors and railroads, all of which declined.

Lower, Slower

MONTREAL (CP)—The stock market was firmly entrenched on lower ground in afternoon dealings today. Trading dropped off to a slow pace. Senior metal and paper shares once again led the list down assisted by miscellaneous industrials, beverages, steel carriers, utilities, senior oils and banks were irregular.

Quebecs in Demand

MONTREAL (CP)—The government section of Montreal bond markets was quiet today and prices unchanged. Demand was shown for province of Quebec issues. The corporate market was firm.

Cattle Prices Weak

CALGARY (CP)—The Calgary livestock market closed with weak undercurrent today. The market was off 124 cents on offer. Good to choice butcher steers and heifers were steady to weak, with a practical top on steers of \$13. Hogs sold Thursday 35 cents up at \$12.25, some 11.25. Good lambs were \$12.25.

GRAIN WINNIPEG

WINNIPEG

WINNIPEG (CP)—Further small purchases of Canadian barley by the United Kingdom highlighted activity today on the Winnipeg grain exchange. This light business was reflected in barley trade, which also saw some domestic shipper demand. Barley prices were steady. Other prices held to a narrow range. Flax showed the most interest.

Oats were taken by processors and domestic shippers, while flax attracted some foreign industrial and seed demand. Rye dealers were mostly local during the dull session.

Prices for Class Two and IWA wheat dropped one-eighth cent.

Canada Safeway Sales Are Up 8%

Income Taxes Take Half-Million More Than Food Store Firm's Net Profit

Net sales of Canada Safeway Ltd. in 1952 totalled \$140,200,996, an increase of 8 per cent over the \$129,447,308 of 1951. It is shown in the annual report of Langan A. Warren, Oakland, president of the company and its parent firm, Safeway Stores Inc. Income taxes totalled \$3,404,000 and net increase was \$2,941,479.

In 1952 Canada Safeway Ltd. had 138 retail stores in operation, including 24 new super markets. During the year two new stores were opened. One new location is under construction and 13 others assigned for planning. These store properties are sold to investors under the company's "buy-build-sell-lease" program.

During the year Safeway also operated 12 principal grocery warehouses, two produce warehouses, three bakeries, a fluid milk plant, a fruit cannery, a vegetable cannery, a coffee roasting plant, a jam and jelly plant and a number of smaller warehouses.

The annual report shows that \$4.15 per cent of all eligible employees are members of the retirement plan for which \$228,547 was set aside in 1952.

Net sales of Safeway Stores.

Newspapermen Get Consulate Appointments

A one-time Victoria newspaperman, C. Norman Senior, 61, has been appointed to head the Canadian consulate general soon to be opened at Seattle.

Mr. Senior was a parliamentary press gallery member here until 1934 when he became private secretary to the late Ian Mackenzie, then minister of national defense.

Currently consul at San Francisco, a post he has held since 1948, Mr. Senior's Seattle appointment is effective in September.

The new Seattle consulate general will serve the states of Oregon, Washington, Idaho and Montana and the territory of Alaska, all formerly served by the San Francisco consulate general.

REDDING TO FRISCO

Mr. Senior's successor at San Francisco will be Paul Redding, 60, of Toronto, also a former newspaperman, who has been with the department's protocol division in Ottawa for some years. As a newspaperman, he held various posts in Brandon, Man., Toronto, Montreal, Calgary and Ottawa.

OIL-SHORT WORLD SEEN

EDMONTON (CP) — A United States oil and gas consultant says that political stumbling blocks are stifling the search for oil and creating the danger that future world requirements may not be met.

Max W. Ball of Washington says there is sufficient oil in the ground to meet world needs for many years, but unless the industry is allowed to develop freely and competitively there is a risk of short supply.

Referring to the shutting down of the Iranian oil refinery at Abadan in 1951, he said it did not immediately curtail world supply, but shook the confidence of the oil world and investors.

Insecurity of investment, he said, is the greatest of all deterrents to foreign exploration for oil. The only countries where huge oil development investments are safe were the United States, Canada and Israel, along with India, Pakistan and possible Afghanistan at the present time. He said Turkey may soon be added to the list.

"Unless the political risks in some parts of the world are reduced, unless governments once more support the rights of nationals abroad, unless oil men can again have confidence in such support, the free world's oil needs may not be fully met."

CWL Share-Transfer Registers to Close

Canadian Western Lumber Co. Ltd.'s share-transfer registers at Vancouver, Toronto, Montreal, and London, Eng. will be closed from April 25 until May 10, CWL secretary W. A. Walker has announced.

New Firm Plans \$80,000 Bottling Plant at Nanaimo

A new \$80,000 soft-drink bottling factory will be created at Nanaimo this year by Island Bottling Ltd., successor to Rummings Ltd.

Partners in Island Bottling Ltd. are E. M. Koster, Duncan, H. J. C. Terry and P. N. Goode, both of Vancouver.

Mr. Terry is president, Mr. Goode secretary, and Mr. Koster managing-director of the new company.

Island Bottling has obtained Rummings' Coca Cola franchise for Vancouver Island north of Duncan.

While its own plant is being readied, the present Rummings' plant on Wallace Street, Nanaimo, will be continued in use.

The new building will incorporate the old Co-operative Creamery plant on Pine Street, Nanaimo. Alterations and enlarging, to cost \$80,000, will begin as soon as possible.

Mr. Koster's headquarters will be at Nanaimo after May 1.

A former resident of Regina and Moose Jaw, where he was associated with Coca Cola Company for 14 years, Mr. Koster came to Vancouver Island two years ago. Recently, he has been assistant office manager for Mayo Lumber at Paldi, near Duncan.

Ex-Victorian New Manager of North Chamber of Mines

EDMONTON (CP) — G. H. Mike Finland, 52, veteran mining engineer and northern flier, has been named manager of the Alberta and Northwest Chamber of Mines.

Appointment of Mr. Finland, a native of Victoria who has operated an oil and brokerage business in Calgary for two years, was announced today. He succeeds L. E. Drummond.

Wyatt Leaves for Industry Relations Talks in East

City Manager Cecil Wyatt leaves Victoria today to attend the fifth annual industrial relations conference of the Canadian Federation of Mayors and Municipalities at McGill University, Montreal, April 22 and 23.

A municipal employees' relations conference will follow on April 24.

Flyers Trail Series

Quakers Take Playoff Opener

SASKATOON (CP)—The defending champion Saskatoon Quakers moved into the lead in the Western Hockey League's best-of-seven final for the President's Cup here Thursday night by outplaying Edmonton Flyers for a well-deserved 6-2 victory.

A capacity crowd of 5,300 saw the playoff opener.

The second game will be played here Saturday night and then the teams shift to Edmonton for the third and fourth contests next Monday and Wednesday.

McLeod Gets Two

Jackie McLeod, with two goals, paced Saskatoon. Other Quaker marksmen were Alex Kaleta, playing coach Doug Bentley, Chuck McCullough and Johnny Chad. Ray Manson and George Senick each drew three assists.

Earl Johnson and Earl Reibel were the Flyers scorers.

Quakers shot into a 2-0 lead in the first period and increased the margin to 4-1 in the second. After Edmonton closed the gap to 4-2 midway through the third, Saskatoon added two more tallies to win going away.

It was Quakers' game all the way. After a rough first period that produced eight penalties, tempers didn't flare again until the 17:42 mark in the third, when Flyers Earl Johnson and Quakers Jackie McLeod were banished with major penalties for fighting.

Outstanding player in the game was Saskatoon's Chuck McCullough, who picked up three points. Flyer Jim Anderson, who had scored in nine straight playoff contests against Calgary and Vancouver, was shut out. He had only one chance and blew it.

SUMMARY
First period—1, Saskatoon, McLeod (Manson, Kaleta) 6:41; 2, Saskatoon, McLeod (Manson, Kaleta) 15:48. Penalties: Ross 1:12, Parker 8:52, Johnson 8:52 and 13:59, Senick 8:51 and 19:12, Wilson 13:52, Hainings 19:12.
Second period—2, Saskatoon, Kaleta (Manson, Ross) 2:08; 4, Edmonton, Johnson (McDonald, Fols) 17:17. Saskatoon, Bentley (Senick, McCullough) 19:19. Penalties: Fols 19:19.
Third period—4, Edmonton, Reibel (Bouchard, Wilson) 10:33; 7, Saskatoon, Chad (Senick, McCullough) 11:11; 8, Saskatoon, McCullough (Senick, Evans) 17:15. Penalties: Johnson, McLeod (seniors) 17:42.
Referee: Hall 9 11-32; Bentley 9 8 8.

Three Local Teams Start Province Cup

Victoria United, Heaneys and Victoria West enter into first round play of the Province Cup soccer series this week-end.

United of the Coast Soccer League will meet Heaneys of the Victoria and District Football Association at Heywood Avenue Saturday afternoon at 2:30, while West, also of the city league, clash with Nanaimo Eagles at Heywood Avenue Sunday at 2:30.

United's line-up finds Bill McAllister in goal, Joe Robbins and Bill Hope at fullback, John Pickburn, Harry "arruthers" and Einar Flaaten on the half line, Cedric Robb at centre-forward, Ray Wilkinson and Denny McGee at insides and Tim Walker and Bernie Clarkson on the wings.

Herman Henry and George Laing, the latter a veteran of Scottish league competition, are spares for the match.

Dog Fanciers to Sponsor Sanction Show at Duncan

The Vancouver Island Dog Fanciers' Association will sponsor a sanction dog show under Canadian Kennel Club rules at the Duncan Agricultural Hall Saturday night at 7.

The show will open with a children's handling class and Lillian Hickling of Nanaimo will handle judging.

Dogs need not be registered but must be eligible under CKC rules.

PHILADELPHIA SUPPLIES SPOKANE TALENT

Indians Have a New Big Chief

By BOB JOHNSON
Spokane Chronicle Sports Writer

SPOKANE, Wash. (AP)—New young and different! That, in a nutshell, sizes up Spokane Indians for 1953 as they prepare for the Western International League baseball season.

This year Indians begin what Spokane officials hope will be a long and happy association with Philadelphia Phillies, who will supply much of the talent Indians hope to put on the field.

To make room for the National League club's options, Spokane did considerable roster cleaning during the winter, leaving only five holdovers from last year's club.

that battled in second place during most of the season.

Returning from a mound staff that was rated with the best in the loop in 1952 are rookie left-hander Jack Spring and Gordy Palm. In Spring, Spokane's next major leaguer.

Phil's have already shipped some mound talent, but more is expected if and when the need arises. George Neve, who won 12 and lost 16 for Tri-City last season, is on hand.

Another WIL player of earlier vintage, lefty John Corbell, who "iron-manned" Indians to a pennant in 1948, is giving pro ball another try and will probably see a lot of relief action.

Other promising mounds-

men include Clyde Dewitt and Dick Descalso, Phil farm-

hands just out of military service; Bill Franks, former Pioneer Leaguer; Carroll Yerkes, Nick Buonato, Art Wade of Victoria, and Mike Shadle.

Spokane's infield will be three-quarters new, only shortstop Wilbur Johnson returning. The Tribe has received first baseman Carl Bush and third baseman Jim Command from the Phils. Re-

placing Yankie Jim Brown in second will be Andy Anderson of Silverdale, Wash., who saw action with the St. Louis Browns in 1948 and 1949.

Other infield candidates include Dave Hammermeister, a former Gonzaga University third sacker; shortstop Ed

Coleman, formerly of Wash-

ington State, and Ray Coley from the Phils. He's a third

baseman.

Things look particularly bright in the outfield where Eddie Murphy returns to patrol centre. The fleet-footed flycatcher, who set a league stolen-base record in 1951 with 90 thefts, will be flanked by Will Hefey and either Bob

Byrne or Bill Holland.

Hefey, the league's home run king with 27 homers in 1951, is expected to provide the much-needed long ball punch in the Indian outfield. Byrne, a Montana State University star, played briefly with Spokane last year, being optioned out for further seasoning.

'Sunny Victoria?' It Just Wasn't So

Victoria Tyees arrived here on the afternoon boat from Port Angeles on Thursday and will play two exhibition games with local amateur teams on Saturday and Sunday before hosting Spokane Indians in their home opener

at Royal Athletic Park Thursday. Berlyn Hodges, local hurler, left, points out to newcomer Joe Clardy that it isn't always raining here, as it was when the squal arrived, and baseball weather is usually of the best.

Painter, McColl Advance To Empress, Semifinals

Chances of an all-Victoria final match in the 23rd annual Empress golf tournament at Victoria Golf Club received another boost on Thursday as the strong Colwood pair, Vic Painter and Bill McColl, advanced into semifinal play after winning close victories.

Only two local divoters remaining in the championship flight, Painter and McColl were both extended to the final hole before closing out their matches on a victorious note. Painter edged Paul Glaser of Seattle, 1 up, and McColl posted an identical verdict over Bob Osgood of Los Angeles.

Today's draw was scheduled to pit Painter against J. W. Kendall of Portland and McColl was slated to meet Chuck Royal of Seattle in semifinal play. Royal won by default from Ed Rapp of Vancouver, Washington. Rapp quit the tourney after a reported dispute over a score-card Wednesday. Kendall defeated R. Clark, 2 up.

MEET IN OPEN

McColl, who defeated R. J. Nichols of Portland, is also scheduled to meet Painter in an all-Victoria final in the men's Open championship.

Only two of the six women golfers who advanced in their championship flight Wednesday moved into semifinal match play.

Mrs. M. McKenna beat Mrs. H. McIntyre of Victoria, tourney favorite, 4 and 2, in the biggest upset of the day, while Mrs. W. Erickson ousted Miss Marion Kennedy, 3 and 2, in two all-local matches.

Mrs. G. Green of Seattle eliminated Mrs. J. C. I. Edwards of Victoria, 3 and 2, while Mrs. J. Lerbach of Astoria was winner of a 3 and 2 verdict over Mrs. S. Horsford of Victoria.

Mrs. McKenna was drawn against Mrs. G. Green of Seattle and Mrs. Erickson was pitted against Mrs. Lerbach.

Stamps Buy Pair

The Calgary Stampede of the Western International Baseball League have purchased pitchers Ed "Gapp" and Bill Stiles from Wenatchee Chiefs. Stiles had a 13-20 record with Wenatchee and Yakima last year. Kapp won two and lost five.

NEW YORK—Italo Scottichini, 193's, Milan, Italy, outpointed Harold Drucker, 160, New York, 8.

ADVANCE TICKET SALE FOR UP-ISLAND FANS

For the benefit of up-island fans who plan to attend the exhibition basketball games here between Seattle College All-Stars and the Victoria Kins, an advance mail ticket sale has been arranged.

Out-of-town fans can obtain tickets by writing to Basketball, Box 6, Victoria. Tickets are \$1 each and cash or a money order should be enclosed with a stamped, self-addressed envelope.

The All-Stars, featuring Bob Houbregs and Joe Cipriano of University of Washington and Ray Moscatel and Les Whittles of Seattle University, will play two games here at one of the high school gyms April 24 and 25.

EDGE PENTICTON'S V's

Beavers Remain in Allan Cup Battle

FORT WILLIAM (CP)—Fort William Beavers kept in the Allan Cup race by edging Penticton Vs 5-4 Thursday night.

Penticton, with a third-period rally that netted all their goals, almost made it three straight games in the best-of-seven senior Western Canada hockey championships, but the lead Beavers piled up in the first two periods saved the game.

Sunday night the Vs won two games 5-2 and went two games up Tuesday with a 4-3 edge.

Lou Milani started the Beavers' scoring in the first period by intercepting a Penticton pass and scoring on a solo rush.

BAYS SEEK B.C. CROWN

JBAA's first division rugby squad is scheduled to meet Vancouver Vindex at MacDonald Park Saturday at 3 for the British Columbia championship.

A win would give the Oarsmen the Ronsell Trophy to add to their collection. They have already won the Cecil Rose Memorial Trophy, Barnard Cup and A. H. Cox Trophy this season.

University School tangles with Vancouver Merlomas for the B.C. second division championship on the lower pitch at 2:30.

Painters, Colwood Golf Club captain, will vie for honors with Colwood professional Bill Court.

Draw for open championships and handicap flights follow:

HANDICAP CHAMPIONSHIP
9:00—H. Olsen vs. G. Whan.

Elegant Elmer Scores Payoff Goal for Habs

Montreal Downs Boston To Capture Stanley Cup

By W. R. WHEATLEY, Canadian Press Staff Writer

MONTREAL (CP)—Elegant Elmer Lach rounded out 13 brilliant years of big-time hockey Thursday night with a \$9,000 goal—the one that defeated Boston Bruins 1-0 after one minute and 22 seconds of overtime play and won the Stanley Cup for Montreal Canadiens.

It was Lach's first goal in 12 games of the post-season playoffs and he didn't know he had scored until Maurice Rocket Richard literally leaped on him, embraced him and brought the two sprawling to the ice.

Richard supplied the pass for the victory goal, his only assist in the 12 games.

The golden goal gave Canadiens the best-of-seven National Hockey League final series four games to one. Before that they went seven tough games before overcoming Chicago Black Hawks in the semi-final.

As new world hockey champions, succeeding Detroit Red Wings, Canadiens will reap \$18,000 in cash from the NHL. The losing Bruins get \$9,000. Depending upon division of shares, each of the winners will get approximately \$1,000.

Mazur Had Hand in Winning Goal

The crowd sank back exhausted at the end of regulation time, but intense excitement surged again as the goal started. Even then Lach's goal struck with dramatic suddenness.

Immediately after the faceoff veteran Woody Dumart of the Bruins planted an easy shot on McNeil. Play swung to the other end. Lach lifted a shot at Henry, playing despite a sprained ankle not yet healed.

Henry cleared it. Canadiens kept play in the Boston end and rookie Eddie "Spider" Mazur flicked a sharp, angled backhand. Henry kicked that one away.

Richard snared the puck off to the side of the Boston cage. From near the end boards he passed with deadly accuracy

back to Lach, moving about in the faceoff circle to Henry's left.

"I didn't know where the puck came from," said Lach afterward. "I knew I had it on my stick and I shot for the net."

It was a hard, low drive from about 20 feet out and the puck whipped past Henry's right side into the low corner.

"The next thing I knew the Rocket was all over me and we tumbled to the ice," said Lach. The crowd went wild with excitement. Fans scrambled over the boards. Lach was lifted high in the air by Richard and captain Butch Bouchard.

Richard carried the Bruins to the bench. Then the Bruins mingled with the Montreal players, congratulating them.

Outfielder-infielder Herman Charles is reported en route and is expected to arrive sometime early next week. Pitcher Bill Bottler is due to be sent down from the Portland Beavers of the Pacific Coast League within the next few days.

CLUB ROSTER
Players with the club are first baseman Joe Clardy, second baseman Lu Brannan, third baseman Don Pries, shortstop Ron Odekir, outfielders Garriott, Napoleon Gully and Gale Taylor; catchers Milt Martin (due today) and Sam Brusa; pitchers Bill Wisneski, Berlyn Hodges, Dean Powelson, Zebadiah Walker, Chuck Abernathy, Mike Williams.

Pitcher Don Hopp is not scheduled to arrive until Saturday morning, having been given permission to remain at his Oregon city home following two months of spring training with Portland and Victoria.

Garriott has given no indica-

tion as to who will pitch in Saturday's game. But if he continues with his spring-training policy, it is likely that two and possibly three members of the hill staff will be seen in action.

Other exhibition games may be held next week. Regardless the Tyees will hold daily workouts until their season's opener against Spokane Thursday night at 7:30.

Two teams, Farmer Construction and Page the Cleaner, filed entries for the Senior Amateur Baseball League, at a meeting of the Victoria Amateur Baseball Association Thursday night.

Two more are expected before deadline for entries closes Thursday.

At least four entries are expected for the 21 and under circuit, while no definite limits have been set for the 16 and under or 14 and under divisions.

The season starts early in May and uniforms will be ordered immediately for all teams in preparation for opening day.

Fierce Bill Pierce Tosses One-Hitter

ON THE OUTDOOR FRONT
With ROY THORSEN

Welcome news came out of Central Saanich for the hunting clan this week. It was the decision of the municipal council that the richest shooting lands in these parts will not be made out-of-bounds to the hunt.

But it isn't a wide open proposition. To shoot on the lands of the new municipality the hunter must abide by laid-down rules.

Written permission must be secured from the land owner allowing entry and the usual permit obtained from Municipal Clerk J. W. Ismay.

"To some, this might seem a lot of red tape. But to the sportsmen who realize hunting on private property is a privilege, not a right, I am sure there will be co-operation," said Ray Ritchie, former prexy of the Victoria Fish and Game Protective Association.

"Our organization urges all sportsmen taking the game trails to abide by the rules... because in that way, and that way only, will we be able to enjoy our sport in that municipality in the years to come," he added.

The older Corporation of the District of Saanich (from which Central Saanich broke away) has prohibited totally discharge of firearms within its boundaries.

So the game trails' boys would be wise to "play it straight" during the coming hunting seasons in Central Saanich—or lose still another shooting ground.

George Laird, present chief of the VFGPA, former presidents Ritchie and Fred Hughes and Secretary Bruce Winsby worked for several months meeting with individual farmers to preserve the hunting ground.

Sidney Lagoon To Be Preserved
Sidney lagoon, favorite brant hunting and feeding ground, refuge for water craft and a general good public recreation spot, will never again face the danger of becoming a storage area for logs.

Commissioner Frank Butler of the B.C. Game Commission has informed the fish-game club officials that through the efforts of the game department and B.C. Lands Department the lagoon has been set aside for all time as a public recreation ground. Efforts of the VFGPA last year killed a move to use a part of the lagoon for log storage.

Victoria Gun Club members will let fly at clay pigeon targets Sunday in the opening round of the season-long trophy chase at the Albert Head Road grounds. Fixture lists for the season are available at sporting good stores.

Here are the featured events carded:
June 7, Vancouver Island skeet championship, trap open; August 12, B.C. skeet and city trap championship tournaments; December 13, open Christmas turkey shoot.

Oak Bay Salmon Club will open its 1953 season with a dance at the Redfern Street Hall on the night of April 24, president George Ford reports. Tickets are limited so club members should pick them up soon from Mr. and Mrs. Dake Scott at Oak Bay Bathhouse.

Trout Picture Becoming Better
Harry Johnston, back from an up-island trip, reports there is no trouble now with log booms in Lower Campbell Lake, out from Forbes Landing. He said the lake has generally been cleaned up.

Victoria's Jack Harris scored the first decent catch of trout on the fly in Lower Campbell recently; seven beauties, on a silver-bodied fly. Reports trailors doing best. The cold winds of late has knocked freshwater fishing off badly. Harris says there are "a lotta fish" in Cowichan River, but the weather has spoiled the picture.

Saanich Inlet is still the big fishing hot-spot. Catches this week have been good of both bluebacks and springs—some of the catches spectacular.

If you look elsewhere on these pages you'll see the Goldstream catch report, and it'll make those boys and girls who picked the "lemon" times or days want to commit hari-kari, or something.

Fishing off Oak Bay has dropped to nothing. The spring run has just sorta vanished.

Grapple Card Erupts Into Full-Scale Riot
Thursday night's wrestling card at Memorial Arena started off like any other mat show but before the full four bouts were over, a policeman, promoter Ken Williamson and a goodly number of the 1,400 fans had a part in it.

The rough stuff started in the semi-windup after badman Red Vagnogne ran Dave Jones' head into the light post on one corner of the ring. Jones, fuming mad, started hitting Vagnogne with everything—but—the water bucket. Referee Dave Pye tried to halt the attempted carnage, only to find himself with Jones' fist halfway down his throat.

JONS DISQUALIFIED
Finally Jones was subdued, but refused to leave the ring until given a rematch. He will get his wish next week, but due to his rough tactics, he lost Thursday's brawl by disqualification.

In the finals, matters got more heated and Walter Kamaroff got more hated for using every foul tactic there is against the negro sensation, Luther Lindsay.

SLIGHTLY ANNOYED
Kamaroff, after being tossed out of the ring six times or more, also went berserk, but this strategy failed to pay off as Lindsay was too crafty. It was Kamaroff, at the end, who was on his back.

Violently displeased, Kamaroff also balked at leaving and it took Williamson, a policeman and a friendly wrestler to assist him from the ring. Referee Pye declared Lindsay the winner. The fans were waiting for

Kamaroff, wiser heads finally prevailing, however.

Danno MacDonald, making his first appearance in a local ring after many months absence, took a one-fall decision over Bronco Lubish in the special event, while Paul DeGallies and Bud Rutall battled to a draw in the opener.

CAMERA SHY
MIAMI, la. (NEA)—Of all the famous stakes he has won, Trainer Jim Fitzsimmons has permitted his picture to be taken only once in the winner's circle—after Johnstown's 1939 Kentucky Derby victory.

With Parker, Johnston Ltd.

Mr. Frank Shore, well-known in the building supply business in Victoria, has been appointed store manager for Parker, Johnston Limited at their new location, 1214 Broad Street. Mr. Shore will be pleased to assist you in the selection of your building and remodeling requirements, particularly with the following well-known quality products: Armstrong Floor Coverings, Johns-Manville products, Borden Paints, P-F-F Plastics, Demolition Products, Fertile Plastic Wall Tile.

Double in Seventh Ends No-Hit Bid

NEW YORK (UP)—Billy Pierce, the first player who came to the White Sox in a five-year rebuilding program that started in 1948, celebrated the second one-hitter of his career today, but he was no more joyful about it than his big boss, Frank Lane.

Pierce, the 26-year-old "dean" of the youthful White Sox, is the oldest player in point of continuous service with them, and, if he continues to pitch as he did in his 1-0 triumph over the Browns Thursday, he might personally bring Lane's pennant timetable to fulfillment.

BRILLIANT PITCHING
Pierce was fierce as he mowed down the Browns to duplicate the one-hitter he pitched against the Yankees in 1949. But he had to be, for lefty Harry Brecheen, the 38-year-old Cardinal castoff, pitched a two-hitter in defeat and the only Chicago run was unearned, coming in the seventh when Jim Rivera walked, went to second on a sacrifice, to third on an error and home on a fly by Sherm Lollar. The Browns didn't get a hit until Bob Young doubled with two out in the seventh. Vern Stephens singled for Chicago in the first and Minnie Miñoso got the other hit in the eighth.

Little Harvey Haddix of the St. Louis Cardinals turned in a pitching job only slightly less brilliant when he set down the Cubs, 3-0, in a night game with only three hits. He allowed only two walks and fanned five batters.

SAIN WINS
At Washington, Long John Sain of the Yankees struck out eight men and scattered nine hits for a 6-3 victory over the Senators.

Elsewhere it was strictly a day for the hitters as Pittsburgh outbatted the Phillies 14-12 in the National and the Red Sox pounded out an 11-6 victory over the Athletics, and the Indians drubbed Detroit 11-8 in the American.

Connie Ryan made six straight hits, two of them doubles, to tie a modern record in the Phils' losing cause at Pittsburgh. Willie Jones of the Phils and Pete Castiglione and Danny O'Connell of Pittsburgh hit homers as Philadelphia made 17 hits to 15 for the Bucs.

TIME OUT! JEFF KEATE

"That's about the shade of the cut dress I was telling you about, Gwen... sort of a greenish-purple!"

Fast-Starting Tri-Bells Win Cage Opener

EDMONTON (CP)—A fast start proved the winning margin Friday night in the first game of the Canadian senior men's basketball final as Toronto, Northtown Tri-Bells edged University of Alberta Golden Bears 62-60.

Second game in the best-of-five series is tonight.

Tri-Bells, a non-league team making their first try at Canada's top hoop honors, quickly took advantage of Alberta's uncertainty in the opening minutes and piled up what proved to be an insurmountable lead. The game was won by the time Golden Bears had organized anything resembling an offense.

Tri-Bells seemed fresh and eager as they rolled to a 22-12 lead in the first quarter. Golden Bears tied it 26-26 with less than 1½ minutes remaining in the half, but still lagged 32-27 at the end of the second quarter and 53-45 at three-quarter time.

That led to his biggest battle, a 25-round title match with Jeffries at Coney Island, November 3, 1899. Jeffries was taller, heavier and had a longer reach, but Sharkey stood up under his heaviest blows for the full distance—getting his ribs stove in doing it. He lost the decision.

Sharkey had saved his purses and opened a luxurious saloon in New York—it was his fortune dwindled with bad investments and horse race losses.

In 1915, having lost his saloon, he came to San Francisco.

He had been in hospital since August 7, 1952. His friends—fighters, promoters, old-time newspapermen and followers—chipped in to pay his expenses.

Doctors at San Francisco hospital said Sharkey "died easily in his sleep."

He was admitted January 31 for the 10th time for treatment of a heart ailment.

ERA ENDS
His death rang down the curtain on a long-gone era of pugilism. It followed closely Jeffries'—Sharkey's greatest rival—who died in Los Angeles March 3.

Sharkey never won a title, but he slugged it out with the best in 11 years in the ring, starting in 1893. He used to boast that he was "afraid of no man—none ever made me take a backward step."

The cocky, Irish-born boxer stood 5 feet 8½ inches and in fighting trim weighed between 180 and 185—about 30 pounds less than most of his heavy-weight rivals. In 54 fights, he scored 35 knockouts and was knocked out only once—by Fitzsimmons in 1900. Four years before he won on an eight-round foul by Fitz.

The same year he fought a four-draw draw with Corbett and a three-round, no-decision bout with Sullivan. In 1899, he lost a close 20-round decision to the champion, Jeffries, and won on a ninth-round foul by Corbett.

That led to his biggest battle, a 25-round title match with Jeffries at Coney Island, November 3, 1899. Jeffries was taller, heavier and had a longer reach, but Sharkey stood up under his heaviest blows for the full distance—getting his ribs stove in doing it. He lost the decision.

FOUGHT THEM ALL

Death Takes Tom Sharkey

SAN FRANCISCO (AP)—Tom Sharkey, 79, barrel-chested battler who was the last of the prize ring greats of the 1890's, died today.

The game little slugger, who had won \$250,000 fighting John L. Sullivan, Jim Corbett, Bob Fitzsimmons, Jim Jeffries and others, died broke—but not forgotten.

He had been in hospital since August 7, 1952. His friends—fighters, promoters, old-time newspapermen and followers—chipped in to pay his expenses.

Doctors at San Francisco hospital said Sharkey "died easily in his sleep."

He was admitted January 31 for the 10th time for treatment of a heart ailment.

Rotarians Learn New Chemistry Wonders

Suits that can be worn in the shower, when they need cleaning, from which water can be shaken, will soon be available, thanks to the efforts of Canadian chemists.

They will not even lose their creases during the dousing process.

This startling forecast was one of many made by CIL market researcher Douglas Walkington, who spoke on "Chemistry and You" to the Victoria Rotary Club Thursday.

Mr. Walkington punctuated his lecture on the wonders of latter-day science in the plastics industry with demonstrations of properties of new plastic products.

One of his strangest props was a clear plastic tube which had been twisted into a curl.

NEEDS NO MIRRORS

When Mr. Walkington shone a flashlight into one end of the tube, the light rays traversed the bends, flared forth with full strength at the other end. He did it with a colored light, too.

He threw plastic cups to the

floor; they bounced higher than he could reach. He poured a glass of water into a nylon stocking . . . and it stayed there!

He pointed out that plastics will never replace accepted structural materials such as iron and wood, but insisted they have a place in Canada's future. "But people must learn more about them."

He explained that a woman would ridicule a clerk who said a dress was made of cloth instead of naming it as either silk, wool, cotton, nylon or other special fabric. So it is with plastics, he stated. There are 17 different types of plastic, each one suited for special tasks, unsuited for others.

Mr. Walkington said that chemists are still teaching these facts to manufacturers. He deplored cheap plastic toys sold everywhere today. Good ones can be made, he added.

The Montreal chemist prophesied that plastic will come into more common use as the public learns their differences. More informative labelling of plastic products will aid in this respect, he thought.

Fire-Fighting Final CD Training Lesson

A practical demonstration in fire-fighting ended a basic training course in civil defense undertaken by residents at Metehosin recently.

S. D. Ranns, CD officer for Metehosin-Happy Valley, was assisted by Mrs. George Friend and Mrs. Carl Heintzman during the course of instruction.

One of the first macadamized roads in Ontario was built in 1936 between Hamilton and Galt.

Prince George Man Held on Fraud Charge

VANCOUVER (BUP) — The RCMP have arrested a 43-year-old Prince George man on charges of fraud, following two weeks' investigation into the \$1,200 swindling of a New Westminster furniture store.

Albin Moore was arrested at White Rock when the RCMP became suspicious of him as he attempted to sell a car.

Moore is reported to have bilked the store by giving a bad cheque for \$200 as a deposit on furniture and home appliances, having the goods delivered to

a Maillardville address, and then selling the goods in a second-hand store before the store officials found the cheque to be false.

With Moore when he was picked up was a 19-year-old girl who is being held pending a drug charge.

Dropped Light Bulb Starts Fire, Kills Man

BEND, Ore. (AP) — A dropped light bulb killed Melvin Brown, 38, Thursday. The bulb, which was on an extension cord, exploded when it hit the pavement where Brown was draining gasoline from his car. Gas fumes ignited and Brown was fatally burned.

OPEN SESAME

LENZIE, Scotland (CP) — To be a Scot in Canada is "an open sesame in every walk of life," said exchange teacher Susan Louise, who traveled home from Australia to this Dunbartonshire town by way of Canada and the United States.

If You're TIRED ALL THE TIME

Everybody gets a bit run-down now and then, tired-out, heavy-headed, and maybe bothered by backaches. Perhaps nothing seriously wrong, just a temporary toxic condition caused by excess acids and wastes. That's the time to take DODD'S Kidney Pills. Dodd's stimulates the kidneys, and so help restore their normal action of removing excess acids and wastes. Then you feel better, sleep better, work better. Get Dodd's Kidney Pills now. Look for the blue box with the red band at all drugists. You can depend on Dodd's. 52

Roto-Cold

the last word in refrigerators... the new word in refrigeration

Think of it! This newest, most wonderful of all General Electric Refrigerators keeps all your stored foods fresh, longer—thanks to the magic of ROTO-COLD.

A constant, positive flow of chilled air flows from the new "cold-slope" baffle throughout the cabinet. All your stored foods—no matter where they are placed, from top to bottom—are kept *fully refrigerated, fully protected* at all times.

AUTOMATIC DEFROSTING, OF COURSE

Frost is *never* allowed to build up. No need to defrost, ever . . . or employ drip trays.

Check these other features . . . more space than ever before, new beauty of design, big full-width freezer, roomy Rolla-Drawers. It's the greatest refrigerator-value your money can buy.

Can't you picture this beauty in your kitchen! See it—learn all about G-E ROTO-COLD—today, at your G-E Dealer's. Other new G-E models priced as low as \$319.00

GENERAL ELECTRIC Roto-Cold REFRIGERATOR

CANADIAN GENERAL ELECTRIC COMPANY LIMITED

HERE'S HOW G-E ROTO-COLD WORKS:

In ordinary refrigerators, temperatures vary as much as 16 degrees from top shelf to bottom. But with G-E Roto-Cold—all parts are uniformly cold. Moist-cold air is circulated inside the refrigerator section to assure proper humidity and constant temperature throughout the cabinet. Fresh foods are kept fresh and appetizing—even uncovered!

Party Proud of Campaign Against Criminal Code Revision, Says LPP

Labor-Progressive Party officials here today answered statements by Gordon Cushing, Trades and Labor Congress of Canada secretary, that so-called 'progressives' are hampering revision of the Criminal Code.

"The LPP is proud of its part in the campaign against the threat to the rights of speech and expression, and to the right to strike and picket, contained in Bill 93, amending the Criminal Code," wrote Mrs. Barney Blakey, Victoria LPP secretary, in a statement to the Times.

"We feel the fact that our position has been supported by broad sections of the Canadian people, including two labor congresses (Mr. Cushing, notwithstanding), the Canadian Catholic Confederation of Labor, civil liberties groups, as well as such publications as 'Toronto Saturday Night' and 'The Anglican Outlook,' is an indication of its correctness," she wrote.

There was considerable discussion of proposed amendments which appeared to threaten the right to strike and picket when all TLC unions in B.C. met in Nanaimo last December to form the B.C. Trade Union Congress.

At that time a letter from TLC headquarters was read stating that a close watch was being kept on the amendments, and that there was no cause for alarm.

Wednesday night, at a meeting of the Victoria and District Trades and Labor Council, Mr. Cushing said the sections in question must be read with other sections of the proposed amendments to be understood correctly, and not alone.

TOURING KING Norodom Siha-nouk of Cambodia leaves Toronto by plane for New York today to wind up an eight-day Canadian visit during which he traveled as just plain "mister." Saxophone-playing monarch returned Thursday night from Niagara Falls where he spent Thursday looking at the famous cataracts and touring a multi-million-dollar power project clad in a rubber coat and boots and a safety helmet. Premier Leslie Frost and Ontario-Hydro Commission Chairman Robert Saunders welcomed the king to the honeymoon capital, Siha-nouk, 31, is a bachelor.

Pearkes Scores Navy Policy On Ship Building

Government Says Work Evenly Spread

OTTAWA (CP)—Maj.-Gen. G. R. Pearkes, VC, (PC-Nanaimo), complained in the Commons Thursday night that the navy is shifting shipwork from civilian shipyards to its own facilities. Cabinet ministers replied shipyard work is being spread around evenly.

Gen. Pearkes said the modernization of the destroyer Algonquin had been done in Yarrow's yard at Victoria. The second modernization — of HMCS Crescent — was being done at the Esquimalt dockyard.

He suggested it would be more efficient to keep on with the work at Yarrow's. The change appeared to give "little encouragement" to civilian work.

Defense Production Minister Howe said several yards are working on destroyers. The purpose was to build up techniques to "meet a war situation."

"I doubt if any analysis of naval work would show that the West Coast is not getting its share," he added.

Ralph Campney, associate defense minister, said all shipyards on the West Coast are being kept "reasonably busy" along with those in the East.

He said the Canadian maritime commission is keeping the requirements of all yards under surveillance.

TORONTO (CP) — Field Marshal Viscount Montgomery will officially open this year's Canadian National Exhibition August 28. J. A. Northey, exhibition president, announced Thursday that the famous British soldier, now visiting Canada, has consented to take part in the ceremonies.

1,000 Shriners to Take Part in Arena Show

More than 1,000 Shriners will take part in a pageant in Memorial Arena June 5, highlight of Gizeh Temple's three-day ceremonial here, June 5 to 7.

The pageant, which is followed by a grand ball, is open to the public. It will feature massed bands and patrols in complicated, colorful drills, and Shrine Temples from many United States cities will take part.

El Katif Temple of Spokane is sending its 35-man Oriental band, rated as one of the best on the Pacific Coast.

Half of the reservations are with hotels and motorcourts within a 12-mile radius of the city centre, the balance in private homes.

"We don't know as yet exactly how many will attend," Mr. Foster said, "but we have accommodation reserved for about 4,000."

"Victoria citizens responded wonderfully to our request for private accommodation," Mr. Foster stated.

NEWS BRIEFS

Bernadette Lineham of 1150 Richardson Street, who attended St. Ann's Academy in 1949, has qualified for the winter-quarter honor roll at Seattle University with a grade point of 3.7. Miss Lineham is taking a laboratory technician's course.

Joe Foster, chairman of the Shrine housing committee, received confirmation today that Portland will send a uniformed unit of 278 men to the ceremonial. Most of them will be accompanied by their wives, so at least 500 are expected from Portland.

**Mayor Claude Harrison to Officially Open
Fairfield Service Station 2 P.M. Saturday
After Complete Renovation**

Hawkes Bros. Realize Plans After 24 Years in the Same

Location

The re-opening of Hawkes Bros. Esso Service at the corner of Moss Street and Fairfield Road, is more than just another business announcing its expansion. It is the result of many years of serving the same area, growing with the needs of the district and finally culminating in the reconstruction of a service station designed to give this area the finest automotive service anywhere.

As a permanent part of the district, the Hawkes brothers are proud to offer their services in the newly-renovated and completely modern premises. Old friends and new ones, too, will drive in and voice their approval of the smart new station which has been the aim of Jack and Bob Hawkes ever since they opened their first service station on the same spot 24 years ago.

Many Fairfield residents will remember when two enterprising youths opened their first service station, taken over from the Imperial Oil Company Limited, at the busy Five Points corner. They planned for a considerable extension the following year, and have been adding equipment and streamlining their service continually.

Today's super-modern station, which now occupies this spot, is the result of careful planning through the years. All of the equipment is the finest obtainable, and the smart, modern building was accomplished through \$20,000 expenditure for remodeling.

As a token of their appreciation to the motorists of the area which they serve, Jack and Bob Hawkes are giving away orchids to those who drive in for service on their opening day. There is no doubt that the residents of this area feel that orchids are due to the Hawkes brothers for the fine job they have done.

Drive In on Opening Day and Every Day!

Island Digest

DUNCAN—Four local rinks are now competing in a four-day curling bonspiel in Seattle. Skips of the Duncan entries are Ron Harper, Larry Marshall, Bill Fowle and Deny Hogan.

DUNCAN—Air Marshall Sir Philip Livingstone, FRCS, opened the "Conquer Cancer" campaign here with an address illustrated by colored slides. He said all discoveries in medicine and surgery are pertinent to the cure of cancer.

DUNCAN—A presentation of the Indian opera "Tzin-quaw" will be part of a two-day Indian festival here during Coronation celebrations. Vancouver Island delegates will meet at the Songhees reserve Sunday to complete plans, said by Songhees Chief Percy Ross to include canoe races, log birling and a display of Indian arts and crafts.

NANAIMO—Parks commission has endorsed a proposal that the city purchase for \$50,000 the 163-acre Beban property at Northfield as a recreation centre and exhibition ground. Purchase price of the property, which includes a race track, is \$50,000.

COURTENAY—About fifty young marksmen, both boys and girls, attended the official opening this week at Lazo Community Hall of the Lazo Rifle Club.

ECMP Cpl. Malcolm Matheson, honorary club president, who fired the first shot to open the season, expressed the need for such rifle clubs in the district. James Harris is president.

NANAIMO—Mayor George Muir announced Thursday that the local tax rate will be unchanged this year at 70 mills. As before, land will be taxed 100 per cent and improvements 35 per cent.

PARKSVILLE—Walter Yeo, W. L. K. Leaman, G. W. Begley and W. S. E. Morrison have been nominated to contest the April 23 election here to fill two vacant seats on the five-man board of village commissioners.

Signs of summer: Saanich firemen Wednesday night put out a bush fire on Maddock's farm, Cordova Bay, and a small grass-bush fire at 4010 Quadra.

WOULD SAVE ANCIENT SITES

Archaeological Fund Advocated for B.C.

A special government fund for archaeological investigation in British Columbia is advocated by Dr. Carl Borden, University of British Columbia archaeologist.

Dr. Borden addressed a combined meeting of the B.C. Historical Society and the B.C. Indian Arts and Welfare Society at the provincial library Thursday night.

Stating that there are many ancient native sites in danger of being obliterated by industrial expansion, Dr. Borden said many of the artifacts and remains at these sites could be saved if money was available to enable archaeologists to conduct investigations.

He said some of the most interesting archaeological remains to be found on the North American continent are situated in British Columbia, but few of these have been investigated.

New 700-MPH Jet Protects Northwest

McCHORD, Wash. (AP)—A jet aircraft so "hot" it isn't used in Korean combat for fear of disclosing secrets was ready to defend the northwest Thursday. The plane is the F 86D Sabre, the U.S. air force's most potent jet interceptor. The air force here announced the first unit to receive the new "D" version is the 323rd fighter-interceptor squadron at Larson air force base near Moses Lake. The planes arrived late Wednesday. The "D" set the world's speed record, combat-loaded, of 698.5 miles an hour Nov. 19, 1952. It has a service ceiling of 45,000 feet.

Air force officials cited the arrival of the new plane as adding up to improved air defense for the northwest. Other air bases in the northwest are slated to receive first delivery of the new Sabre soon.

TODAY'S USED CAR SPOTLIGHT

Year in and year out more people buy used cars at Wilson Motors than anywhere else in Victoria or on Vancouver Island. The values listed here and our reputation as a good dealer to deal with are the reasons. One lowest price marked on every car—no price juggling.

NEW KELVINATOR with

"Magic Cycle"
AUTOMATIC DEFROSTING

SAFER—No exposed high-temperature heating elements inside the refrigerator... no danger of accidental burning or shocks.

SIMPLER—"Magic Cycle" uses only the natural heat of the refrigerating system. No complicated controls or wiring to get out of order.

FASTER—Defrosting in your Kelvinator takes place so rapidly that even ice cream or other frozen foods stay far below freezing throughout the entire defrosting period.

More of everything in the NEW KELVINATOR

More Beauty! ... More Features!

Gleaming white porcelain interior with Colonial Blue and Gold appointments, this year's new Kelvinators are designed to make every woman "catch her breath". And more than beauty—Kelvinator Refrigerators are filled with the most useable, most work-saving features that skilled engineering can provide.

FULL WIDTH FREEZER—All five interior surfaces refrigerated for steady, safer cold. Back enclosed to help prevent excessive frost from sticking packages together. Freezer door insulated to keep cold in. Formed of corrosion-resistant aluminum strengthened by special embossed design.

ROLL-OUT DAIRY SHELF—New Dairy Shelf rolls out smoothly on heavy duty nylon rollers. Just lift off the food you want. Sturdy... built to last... Provided with a safety stop so it won't tip.

SHATTER PROOF CRISPERS—Almost a bushel of moist-cold storage in easy-to-handle, gleaming white crispers. Made of Kelvinator-pioneered shatter-proof Polystyrene, they never crack or chip.

BUTTER CHEST—Another wonderful feature. The roll-lid Butter Chest recessed in the door keeps butter spreadable, ready to use. Made of shatter-proof Polystyrene.

POLARSPHERE—The Polarsphere cold making unit—exclusive with Kelvinator—famous the world over for its precision performance and rugged dependability. Guaranteed to give years of trouble-free service.

And for the First Time in Canada... **KELVINATOR** Electric Ranges with "Thermagic" Oven
SEVEN BRILLIANT MODELS

In Kelvinator's complete new line you'll find a model to fit your kitchen and your budget. Double or single oven styles—with exciting new features. "Automatic Cook" and "Scotch Kettle"

deep well cookers—wonderful for busy women. 7-heat high speed surface units, appliance outlet, fast pre-heat ovens and many other great Kelvinator features you'll love to use.

Jerry Colonna Star of Shrine Show

Jerry Colonna, the little man with the big mustache and the bigger voice, is the star of the annual Nanaimo Shrine Circus, which opened Thursday in Nanaimo civic arena for a three-day stand.

Colonna, often called the "mad professor of double-talk," and a confederate of Bob Hope in zany antics on screen and radio, heads a parade of clowns,

animals, acrobats and all the panoply of a big-time circus. Colonna acts as ringmaster, and also presents his own personal routine of songs, patter and pantomime.

Boxing bears, who also perform on roller skates, are another feature of the Shrine Circus, staged each year in support of Shrine charities. Other acts include performing dogs, the Aerial Charltons, Hap Henry on the slack wire, a baby elephant routine, and, of course, plenty of clowns.

Evening shows are scheduled for 7:30 tonight and Saturday, with a matinee at 1:30 p.m. Saturday.

MERRY JERRY

City Council Passes 56-Mill Rate

The 1963 tax by-law calling for a rate of 56 mills, one-half covering the city's budget of mill lower than in 1962, was reconsidered, adopted and finally passed unanimously at a special City Council meeting Thursday.

The expenditure by-law favored 56½ to provide a greater contingency fund and half supported the 56 rate.

Those holding out for 56½ agreed to the 56 rate in order to settle the issue.

Quebec Towns Damaged by Spring Tides

STE. ANNE DES MONTS, Que. (CP)—Residents of dozens of little Gaspé peninsula villages and lower St. Lawrence river south shore towns Thursday cleaned up damage estimated at "hundreds of thousands of dollars" left by wind-lashed spring tides.

The tides, reaching a peak of 17 feet, were back to a regular swell Thursday. The damage was spread along more than 150 miles from Rimouski to the Atlantic coast of Gaspé peninsula during the 24-hour nightmare which ended late Wednesday night.

At Rimouski, a small dredge was turned on its side. Cellars and homes were flooded and a few families had to evacuate their homes.

Wildlife Service Asks Public Protect Migrating Cranes

WASHINGTON (AP)—The fish and wildlife service has appealed to the public to allow the nearly extinct whooping crane to migrate northward unharmed.

The service said Thursday it has received reports from its national wildlife refuge in Texas, the winter home of the cranes, that the last of the 21 known free birds had left the refuge by April 14 on their way to traditional breeding grounds in the Northwest Territory of Canada.

Only if the giant birds are allowed to migrate unharmed to their nesting areas can young whooping cranes be hatched and reared to continue the bird in the future, the service said.

Although the whooping cranes are fully protected by federal law, two were killed by gunners last year during their southward migration. One was killed in Kansas and another in Saskatchewan.

Helsinki Business Life Said in Turmoil

HELSINKI (AP)—Business life was thrown into turmoil here today by a newspaper report of a secret government proposal for sweeping wage and price cuts. Sources said they believed the proposal leaked out through the leftists, who bitterly oppose wage cuts.

The Gaspé Peninsula of Quebec was widely known in pioneer literature as "Gaspesia."

BETWEEN TIMES

By MONTE ROBERTS

Elsewhere in this issue of The Times is a brief item telling what a young man needs to be a successful farmer in B.C.

Apparently various farm clubs throughout the province were questioned, and according to the results, our young farmer-to-be must be a tireless worker, a high-powered business executive, have a fondness for farm animals, and, above all, his wife must give him plenty of sympathy.

The story does not say whether she is to sympathize with him for being tireless, high-powered, or successful.

Maybe she is to shed a tear on his behalf because his fondness for farm animals is not reciprocated by an equal fondness for him on the part of the farm animals.

In any event, it presents a rather dreary prospect for the farmer's wife.

Perhaps all farmers should be bachelors.

I hate to pick on the men who write headlines, but the man who wrote this one was so delighted with it—after it appeared in print—that he wants to make sure everyone enjoys it.

On a story about Victoria's water supply, the head was: **RESERVOIR'S CAPACITY HELD AMPLE STILL**

Man who wrote it said his wife rushed to the kitchen, sampled a glass of water, then complained that the still couldn't be working very well.

The Punch for Premier movement is beginning to snowball, with enthusiastic letters coming from all sorts of places.

Punch has already received letters or telephone calls from:

- A manufacturer of campaign buttons.
- Three job-printers.
- Seven advertising agencies.
- A bloodhound, retired because of sinus trouble, seeking an administrative position with the civil service.
- Punch is very grateful, and will be happier still if he hears from a voter.

I see there is to be a conference of leaders in the civil aviation industry.

Reminds me of the applicant for a job as stewardess who thought civil aviation was a mail plane raising its wing flaps on meeting a female plane.

TOPICS OF THE TIMES

It happens to judges, too. . . .

Mr. Justice A. D. Macfarlane issued a mild protest in Supreme Court chambers here today when he noted lawyers were pressing to have many of their cases heard next week before he goes away on circuit duty.

"See here," said the judge. "I want to leave something for the other judges to do. Last year I was kept busy for eight months and then I went away and there was practically nothing to do here. When that happens, the other judges think I don't do anything."

Feature of a Monday night meeting of the South Vancouver Island Rangers in the AN and AF Auditorium will be a demonstration of resuscitation equipment employed in the organization's emergency search service. Ranger Ken Alexander will speak on "Bush Survival."

Mrs. Grace Hughes will speak on "A New Concept for Living" at a public meeting of the Theosophical Society, Sunday night at 8, at 904 Government Street. Mrs. Hughes will give the results of her research into the nature and trend of modern scientific thought.

The sum of \$750 was cleared to aid in furnishing the proposed new 104-bed Gorge Road Nursing Home by Adeline Duncan's Scottish Revue of 1953 held at the Royal Monday night.

Saanich police are keeping a sharp lookout for motorists who break the speed laws in the municipality. Thursday's Saanich court pre-paid fine list included eight motorists who were fined a total of \$120-\$15 each—for traveling over 30 m.p.h.

A fine of \$20 was imposed against Kenneth Custance, Victoria, when he pleaded guilty in city police court today to a charge of causing a disturbance by shouting in a public place—the hallway of the Scott Block—on April 9.

The offense of violating a driver's license restriction by not wearing adequate eyeglasses while driving, cost Arthur E. Emerson, 363 Kinver, \$25 in city police court today. He pleaded guilty.

Best Co-Operation Among Churches Seen By Council Secretary

Religious denominations in Canada are co-operating today more than they have ever done before, Dr. W. J. Gallagher, general secretary of the Canadian Council of Churches, told a group of 20 ministers at the First Baptist Church Thursday.

Dr. Gallagher returned to Vancouver Thursday night after conferring with several ministers on the work of the World Council of Churches. The council is composed of members representing 160 denominations in 45 countries.

The minister, who recently returned from attending a conference of the World Council in India, said India is seeking educational and medical missionaries. He added, however, that India wanted to develop its own evangelism.

Hockey Star's Widow Gets Out-of-Court Settlement

A \$7,000 out-of-court settlement between Mrs. Thelma Evers, 1732 Foul Bay Road, and persons formerly associated with the New Westminster Hockey Club was approved by Mr. Justice A. D. Macfarlane in Supreme Court chambers today.

The settlement disposes of a suit launched by Mrs. Evers following the death of her husband, Merlin Freemund "Dutch" Evers, a hockey player, as the result of an auto accident in Washington State Oct. 16, 1950. Evers, a member of the New Westminster Royals, was on a road trip with the team at the time.

Mrs. Evers' suit was against Kenneth C. MacKenzie and W. W. Gregg, who in 1950 were co-owners of the Royals; Mrs. Ken-

Wage Hikes Due

Saanich Firemen Sure of Boost

Wage increases are recommended for Saanich firefighters and to certain categories of municipal outside workers in reports handed down today by two conciliation boards.

In a third report, a majority board rejected a claim by Saanich police for a percentage increase in pay.

The recommendations of the board with regard to the fire and police departments are binding on the municipality of Saanich and are effective as from April 1. The awards to the outside workers have yet to be confirmed by the Saanich Municipal Association and Saanich Council.

The awards affect over 200 employees.

The boards' awards are the result of many weeks of negotiations between Saanich Council and municipal employees. On the whole the majority of employees have claims for pay increases rejected.

DETAILED AWARDS

Here are the awards of the conciliation boards:

Wages for first class firefighters are to be raised from \$259 to \$270 a month. Other grades are to be altered in proportion.

A request that premium pay be given to senior fire fighters who act for officers when no officers are present at a fire, was rejected by the board.

A request from Saanich police that their pay be raised to the same rate as that paid to Victoria city police or for a percentage wage increase, was rejected by a majority vote of the board. C. Parker dissented.

HEAVIER DUTIES

The board felt that the duties and responsibilities of the city police force in a seaport town are greater than those in a rural municipality.

With regard to outside workers, a conciliation board recommended that wages for carpenters be raised from \$1.25 to \$1.75; truck drivers from \$1.24 to \$1.50; crane truck operators, \$1.24 to \$1.50; cement finishers, \$1.30 to \$1.40; bulldozer operators, \$1.24 to \$1.50.

The board felt that as the cost of living is actually falling, "there does not appear to be any justification in a general advance in the wages" for other municipal workers.

Mrs. G. H. Glover, Wife of Retired Clergyman, Passes

Wife, daughter and granddaughter of Canadian clergymen, Mrs. G. H. Glover died at her home on Beach Drive, Brentwood Bay, Thursday.

Wife of the Rev. George Glover, she was the daughter of Rev. C. O. Johnson of Toronto and granddaughter of Rev. George Weed, formerly of Toronto.

She was a graduate of the Toronto Conservatory of Music. Married in 1912, Mrs. Glover lived for the most part in Saskatchewan. The family moved here in 1950 on Rev. Glover's retirement.

Four sons survive: Capt. C. D. Glover, at Edmonton; Nelles H. in Kimberley; G. Sterling, Phoenix, Ariz.; and Lloyd in Ontario.

Funeral is scheduled for Monday from McCall Bros. chapel, Rev. W. Buckingham officiating, with interment at Royal Oak.

Year's Art Effort on Display

Miss Velma Jackman, 19, has been painting for only a year. But her work will be given prominence at the B.C. Products Fair hobby show in Memorial Arena May 4 to 9. She is a student of art teacher H. Moorhouse, and employed by B.C. Forest Products Ltd. here. (Times Photo by Irving Strickland.)

Island Power Project To Cost \$7 Millions

BCPC to Add 35,000 HP to Output To Meet Growing Industrial Demand

The B.C. Power Commission will take over the Canadian Collieries Ltd. Puntledge River power plant in Comox Valley May 11 and spend \$7,000,000 reconstructing the unit.

Premier W. A. C. Bennett said today the revamped plant will add 35,000 horsepower to Vancouver Island's power output. The John Hart Development on Campbell River has an output of 112,000, but this soon will be boosted 56,000 horsepower.

Thus the island, sorely in need of more power, soon will have a total power output of 203,000 horsepower. The project includes construction of a dam, intake works, pipeline, surge tanks and a powerhouse. The government also has authorized a \$2,380,000 expenditure for a power project on the Spillamacheen River in the Columbia Valley.

This unit will develop 5,500 horsepower, and a 33,000-volt transmission line will be built in connection with the project between Golden and Edgewater. Meanwhile, power commission engineers are preparing to make drill tests of rock formations at Buttle Lake to determine the best location for the dam there, and the best type of dam.

It is hoped a start on the dam will be made in the autumn. The project includes construction of a dam, intake works, pipeline, surge tanks and a powerhouse. The government also has authorized a \$2,380,000 expenditure for a power project on the Spillamacheen River in the Columbia Valley.

Agriculture Body Elects Orchard Island President

William Orchard, plant pathologist at the Dominion plant laboratory at Saanichton, has been elected president of the Victoria and Islands branch of the Agricultural Institute of Canada.

Others elected were Alan E. Litter, vice-president; Richard Turley, secretary, and directors, Donald Fisher, Wilfred Pendray and Clifford Faulkner. Mr. Litter is district horticulturist with the provincial agriculture department, and Mr. Turley is in charge of forest crop work at the Dominion Experimental Station.

Confiscation of Gun Ordered by Court

Two men were fined \$25 each and assessed \$3 costs by Magistrate A. I. Thomas in provincial court today for infractions of firearms regulations.

Donald Ross, Otter Point, was found guilty of having a loaded gun in a vehicle, and had it confiscated.

Ian Diment, 2106 Marne Street, was fined for having no gun license.

Police said the pot was thrown through the door window of the electrical firm to enable release of the catch. Stolen was some small change and clothing. The mill office was entered by smashing a door leading from the warehouse. The cash register was rifled of its few pennies and some stamps were stolen.

\$20,000 Home Said Unsuitable for Uplands

Labeled "undesirable" by Uplands' petitioners is this \$20,000 Ripon Avenue home. It is one of a group of three new homes objected to by 23 Oak Bay landowners. The three homes are of different modern design, built at least 35 feet apart. They have three bedrooms, hardwood floors, built-in car

port, small patio. Each has a fireplace, tiled utility room, lacks a basement. Contractors say they were built to Oak Bay regulations, threaten legal action on "damaging statements" by petitioners. Oak Bay council referred the petition to the Town Planning Commission. (Times Photo.)

Ottawa May Sue City For Sales Taxes Due

Macmillan Would Fight; But Patton Warns: 'You Wouldn't Have a Chance'

The Dominion government today threatened to sue Ottawa for \$654 in unpaid federal sales tax.

The tax is owing on items the city manufactured for its own use from October to the end of March. In addition to the tax and interest, possible penalties are believed to run as high as \$1,000.

Dennis Young, city comptroller, was authorized by council to file returns under protest but send no money. Council considers the tax unfair.

A finance committee meeting today agreed to refer the matter to city council meeting April 23 to decide whether to fight the issue or not.

Ald. Robert Macmillan, favored making a "test case."

"You would not have a chance," advised city solicitor Arthur Patton.

BAD TIME TO SUE

Queried Mr. Young: "Isn't it a bad year for the federal government to be suing a municipality on the West Coast?" He referred to the forthcoming federal election.

Ald. Macmillan agreed, stating the tax was "ridiculous."

"I'd sure like to see them uncomfortable," he added.

W. C. Haw, chief of the excise tax collection, department of national revenue, advised the city by letter that regardless of Ottawa's views on the matter, the money is legally due and payable under terms of the Excise Tax Act.

LETTER WARNING

"If payment is not made in the next few days we shall have to consider legal proceedings for recovery of penalties provided by the act for your neglect in this regard."

The letter specified \$468 owing for October to February. Since then an additional \$186 is owing.

"Maybe some of our budding politicians might take it up," commented the mayor when Ald. Macmillan suggested a "test" case.

May Construction Start Planned for Nursing Home

Construction is expected to start on the proposed \$450,000 104-bed Victoria Nursing Home on Gorge Road early in May, Ald. Margaret Christie said today.

The Dominion government has approved the plans, the city has been advised by F. E. Winslow, president of the Victoria Nursing Home Society.

The plans will be submitted to the city building inspector immediately.

"I hope to have everything going through at next Thursday's council meeting," said Ald. Christie, who as chairman of the city's health and welfare committee, has fought a long battle for the nursing home.

"We need it badly."

She has consistently fought to have and keep monies raised from land sales set aside as the city's share of the new home.

The federal, provincial and municipal governments share cost, one-third each of the \$450,000 project.

"We are most anxious to proceed with the home as the need is very great," wrote Mr. Winslow.

The provincial government who advised Mr. Winslow of the federal government's approval, will apply to the Dominion for its share—\$156,000 which is equal to \$1,500 a bed for 104 beds.

Franklin B. Adams, 1464 Begbie, pleaded guilty in city police court today for driving a car while his license was under suspension.

He pleaded not guilty to driving carelessly on Yates Street, April 5, and was remanded to April 23 for trial on that charge.

Douglas Carlson, transferred to senior court from juvenile court, was given a month for theft of a tire under the value of \$25, the property of Knott & Elford Service Station.

Magistrate H. C. Hall told the youth: "I am only going to give you a short sentence this time, but I would recommend that you go to work and work seriously for a year and then you may be accepted into one of the armed services."

Mrs. Doreen May, 770 Queens, found guilty following a trial earlier this week on a charge of stealing a coat and purse from the Hudson's Bay Company store, was given a one-year suspended sentence.

Magistrate Hall noted that Mrs. May had already spent some days in jail. He ordered her to post a \$500 bond, drink no liquor for a year and report to the probation officer monthly.

Caught red-handed with a stolen 1953 validation tab from an automobile licence in his possession, Charles Sidney Keighley, 21, of the RCN, admitted a charge of theft under the value of \$25.

Constable John Rickerby ap-

CORONATION YEAR LURE FOR TOURISTS

Premier Bennett today appealed to British Columbians to decorate their cities and towns this summer in the spirit of Coronation year.

He said special events should be staged to tie in with the federal and provincial governments' campaigns to persuade American tourists to spend a Coronation year vacation in Canada.

"B.C. is in a fine position to have a record tourist year," said the premier. "Even though this is an election year, we must not forget our important tourist business."

The government is advertising in U.S. publications inviting Americans to B.C.

The premier has just returned from a southern trip.

Bread Price Increase Here Held Unlikely

Price of bread is expected to remain at 14 cents in Victoria despite an imminent jump to 15 cents in Vancouver.

A spokesman for a large mainland bakery said today the boost is considered due because of rising production costs.

"Don't know anything about it," was the answer from officials of Victoria's four largest bakery concerns.

Production cost increases listed by the Vancouver bakery spokesman were a 20-cent per bushel rise in the price of milling grain, higher freight rates, and the fact that the bakers' union had announced demands for a 15-cent hourly pay boost and reduction of the work week from 40 to 35 hours.

No Firms Anxious To Trim Grass on City Boulevards

City of Victoria has failed to receive tenders on plans to maintain city boulevards by contract.

When Mayor Claude Harrison heard the specifications at a finance committee meeting today he said: "No wonder no one tendered."

"Have a new set of specifications drawn up and bring them to committee," he advised.

The specifications covered nearly two pages and contained instructions for cutting every eight or 10 days, methods of watering and length grass was to be.

Ald. Robert Macmillan suggested a simple contract calling for keeping the grass green and cut. The mayor said the contract required by the specifications read at the meeting would break a man.

Just who drew up the specifications was not clear and the committee did not probe the matter.

Youth Jailed, Woman Gets Probation in Theft Case

A 17-year-old boy was given a one-month jail term, a woman received a suspended sentence and a young sailor pleaded guilty when they appeared in city police court today on theft charges.

Douglas Carlson, transferred to senior court from juvenile court, was given a month for theft of a tire under the value of \$25, the property of Knott & Elford Service Station.

Magistrate H. C. Hall told the youth: "I am only going to give you a short sentence this time, but I would recommend that you go to work and work seriously for a year and then you may be accepted into one of the armed services."

Mrs. Doreen May, 770 Queens, found guilty following a trial earlier this week on a charge of stealing a coat and purse from the Hudson's Bay Company store, was given a one-year suspended sentence.

Magistrate Hall noted that Mrs. May had already spent some days in jail. He ordered her to post a \$500 bond, drink no liquor for a year and report to the probation officer monthly.

Caught red-handed with a stolen 1953 validation tab from an automobile licence in his possession, Charles Sidney Keighley, 21, of the RCN, admitted a charge of theft under the value of \$25.

ASK THE TIMES

Q.—Why was a certain period in history called the dark ages?

A.—Because of belief that European civilization made no advancement between the fifth and twelfth centuries.

Q.—Is the cougar which is found on Vancouver Island the largest catlike animal in the western hemisphere?—O.W.H.

A.—No. The jaguar is larger.

Q.—What is the origin of the expression "The sanctum sanctorum"?—R.L.

A.—Sanctum sanctorum is Latin for the "most holy place."

Anyone wishing a question answered is invited to send the question to "Ask the Times" Editor, Questions and answers will be published daily. All questions should deal with matters of fact and be of general interest.

SHOPPING GUIDE

Cool Weather Affects Price Of New Garden Produce

By PENNY SAVER

Unseasonably cool weather is affecting prices of locally-grown produce although some imported fruits and vegetables are currently cheaper than they have been. Blame the weather man for a slight rise in cost of lettuce as of today and for the continued high price of asparagus and rhubarb. California new potatoes are becoming more plentiful and will be lower in price Monday, but look for a slight increase in cost of potatoes from the Canadian prairies.

Green peas from California are on the stalls today and, although slightly higher than Mexican ones at present, they will gradually decline in price.

Ripe tomatoes will be scarce this week-end but there should be plenty available at the beginning of next week. Locally-grown cauliflower and cucumbers will soon be more plentiful. The annual shipment of onions has arrived from Australia and should last about two months.

Strawberries are especially nice just now, but expensive; bananas continue to sell very well at the regular price of two pounds for 39 cents; while oranges are at present at the lowest possible price. Large Hawaiian pineapples are selling at the regular price of about \$1.95 each.

Butter is lower by 1 cent a pound and is not likely to be any cheaper.

Just about the most attractive way to camouflage the curls when you set your hair at home is under a perky tam of terry cloth which you can get in a variety of colors for \$1.39 each. These tams are also nice to use as shower caps, since they fit closely at the hair line, and as they launder easily they are great to cover up your hair when dusting ceilings or sweeping the basement!

Just imagine all the wonderful ways and many occasions you could use a summer stole. For \$8.95 you can buy a lovely soft woolly textured white nylon stole that will see you through many seasons if you give it just a little care and consideration.

AS WE LIVE

One Broken Romance Should Not Wreck Life

By ELIZABETH B. HURLOCK, Ph.D.

One broken romance, no matter how painful it may be, should not wreck a person's life. That is the advice I am giving to the young man who wrote:

(Q) "While I was in the service overseas, the girl I was engaged to married someone else. This left me shattered and very un-nerved. Despite this, I finished college and have a good job. I do not brood about the past because I am happy in my work and keep busy. I have gone with several girls but have never been able to achieve a real happiness with any of them. Perhaps I have lost confidence, or am suffering from defeatism, or can't shake off the past. Most men seem to make a selection within a year or two but I am still in a muddle, romantically speaking.

(A) The trouble must lie in me, not the girl. Can you help me?" (A) The only way anyone can help you to get out of this romantic "muddle" is to help you to get rid of your adolescent ideas about girls, romance and marriage. As a mature man, you should have mature ideas about marriage. These, of course, can be romantic but they must be realistic, not figments of your imagination.

Take the matter of selecting a wife in a year's time. I know that many men make decisions as quickly as that, but many of them end up in the divorce courts too. Selecting the woman with whom you want to share the rest of your life is the most important decision you will ever have to make. Looking at it through mature eyes, you must realize that one or even two years is barely time enough to come to a wise decision.

Then take the matter of the type of girl you want to marry. She may not be the glamour girl who appeared to you when you were a younger man, but she must have stability of character which your former fiancée obviously lacked. It is harder to get to know and to become interested in a girl of high character than in one whose appeal is primarily her glamour.

Don't, therefore, be discouraged if a girl does not appeal to you strongly after a few dates. Remember, too, that each year there will be fewer and fewer girls of suitable age available for you. As a result, you will have to look harder than when you were a younger man.

Elizabeth Hurlock is a consulting psychologist. Write her in care of this newspaper for free advice.

Special Guests—Members of the Chinese Women's Missionary Society were guests at special thankoffering service of Centennial Auxiliary to the WMS, in the church hall. Guest speaker, Rev. J. Jones, had

TODAY'S RECIPE

LEMON FISH BROIL FOR LOW-SALT DIETS

The tang's the thing that makes this lemon broiled fish something pretty special. Since seasoning is the biggest problem in preparing foods without salt, the lively flavor of this dish will be doubly welcome—even members of the family who are not on a restricted diet will appreciate it.

Lemon does the trick. Adds a subtle flavor of its own. Brings out the delicacy of the fish at the same time. Serve extra lemon wedges with it—they make all the difference when you use no salt. If you have one of those broil-and-serve platters, use it for this dish and bring direct from broiler to table, for extra drama.

One-quarter cup fresh lemon juice, ¼ cup salad oil, 1 pound sliced fresh halibut (or fresh cod, fresh salmon, fresh perch, fresh bass), paprika.

Combine lemon juice and oil. Mix well. Cut halibut into individual-sized servings, brush with lemon-oil mixture and sprinkle with paprika. Place fish on rack approximately six inches under the broiler and broil about 10 to 12 minutes, depending on the thickness of the fish. Turn each piece, brush with lemon-oil mixture and broil until fish flakes easily with fork (about 10 minutes). Brush with lemon-oil mixture frequently while broiling. Serve immediately. Serves 4.

Extra good to serve with: string beans cooked without salt but delightfully seasoned with LEMON-SWEET BUTTER.

One and half teaspoons boiling water, 2 tablespoons sweet butter, softened, 1 tablespoon fresh lemon juice, 1 tablespoon grated onion or chopped chives.

Women's Benefit Association, Review No. 1, K. of P. Hall, Monday at 7:30 p.m. Social evening. Municipal Chapter, IODE, Monday at 7:30 p.m., at headquarters, Government St.

WHY GROW OLD?

By JOSEPHINE LOWMAN

A Talkative Teenager Wants to Break Habit

Q—"I am a teenager, fairly average. I am not too bad looking and I can make friends easily but I am too talkative. I have either inherited this or have developed it, but I think I have inherited it, because I have several aunts who are the same. It seems to me that because of this it is harder for me to be popular. When I talk, I talk too loud. If I could break this habit I would be a much happier girl."

A.—In a way folks do inherit such a habit. Some families are quiet and reserved while others are noted for their vivacity and talkativeness. When a young person grows up in the fast talking family she has to fight from childhood to get a word in. She therefore either develops the habit herself or becomes just the opposite—very quiet, because she was snowed under long ago.

Talkativeness is not a handicap unless it is extreme. When it is, it indicates that one is more interested in oneself and one's own thoughts than in others. You have already taken the first step by realizing that you talk

too much and too loudly. Don't take it to the other extreme and sit like Silent Sam. You are probably an enthusiastic, vivacious person.

Here are two aids. We become so accustomed to the sound of our own voices that we take them for granted. Learn to listen to yours when you talk. Also, for a while try digging ideas and thoughts and stories out of others. See how much you can find out about those with whom you talk. After you slow yourself down some, take the middle road.

OF PERSONAL INTEREST

From Across the Sea

Mrs. Louis Danvers is a visitor in Victoria from London, Eng., the guest of Mrs. J. L. Gates, Royal Anne Apartments, Burdett Avenue. Mrs. Danvers crossed the Atlantic aboard the Queen Elizabeth, docking at New York. She will return to the British Isles just in time for the Coronation.

Arrives for Wedding

Mr. Donald Farmer Wingate arrived from Los Angeles on Thursday for his marriage to Miss Shirley Cameron this Saturday afternoon. He was accompanied by his best man, Mr. Henry Dimeling, Spokane. They are staying at Oak Bay Beach Hotel.

Out-of-town guests arriving for the wedding include the bride's cousin and her husband, Mr. and Mrs. Kenneth Beaton, and Miss Diane Elworthy, Vancouver; Capt. Harold Rankin, Calgary; Miss Diana Gould and Mr. Dick Evans, Seattle, and Mr. Jack Lutz, San Francisco.

Tea for Son and Fiancee

Mrs. George Ripley, 78 Linden Avenue, entertained at the tea hour recently in honor of her son, ACI Bruce A. Ripley, and his fiancee, Miss Joanne Harper of North Vancouver. Presiding at the tea table were Mrs. W. R. McCurdy and Mrs. Donald Gillis. Mrs. W. Pat Hayward and Misses Corinne and Marina Patti assisted the hostess in serving.

The same evening Miss Harper entertained several fellow members of Royal Jubilee Hospital graduate class of 1952.

Miss Harper and Mr. Ripley will leave this week-end for the east, where Mr. Ripley will sail May 7 on the St. Atlantic for Germany. During his absence Miss Harper will visit relatives in St. Catharines, Ont.

College Professors Honored

Mr. W. H. Hughes, who is retiring as head of the physics laboratory of Victoria College this year, was honored Thursday afternoon by 40 co-members of the staff, who gathered at the Richmond Road home of Mr. and Mrs. Robert Wallace, at the tea hour.

Also honored was Mrs. J. Tracy, the former Miss Phyllis Baxendale, German professor at the college, who was quietly married a few weeks ago.

Presentations were made to both Mr. Hughes and Mrs. Tracy during the afternoon, and corsages presented to Mrs. Hughes and Mrs. Tracy.

Presiding at the tea table, which was covered with a lace cloth and centred with an arrangement of pink and blue hyacinths, were Mrs. Harry Hickman and Mrs. J. A. Cunningham. Miss Dorothy Cruickshank, Miss Patsy Sullivan and Mrs. Joyce McKay assisted in serving the gathering.

Arrangements for the tea were made by Mrs. Phoebe Noble, who also received the guests, assisted by Mrs. Wallace.

Mr. and Mrs. Roy Crocker, Meaford Road, Langford, have left to spend several months in England, where they will see the Coronation.

Mr. Thomas Milward has come from Nanaimo to spend a short time with friends in Victoria and at Langford.

Cadet Enrollment Awards Presentation

Annual enrollment ceremony, sponsored by Victoria Cadet Nursing Division, No. 61C, was held this week at St. John headquarters, View Street.

Senior officers present included Mrs. Phyllis Munday, provincial superintendent, St. John Ambulance Brigade (N); Mrs. E. V. Harwood, area officer, Vancouver Island; Mrs. E. L. Rogers, superintendent, Victoria Nursing Corps, and Miss Gladys Hewlings, cadet area officer.

Ceremony included a formation march by uniformed cadets to receive veils and pins from Mrs. Munday. Following their retirement to pin on their veils, Cadet Beverly Smith sang "Bless This Home."

Following cadets were enrolled: Cadet Division, No. 61C, Peggy Boulter, Gloria Daly, Irene Feika, Elaine Martin, Judith Parsons, Ann McAndrew, Ruth Phillips, Sylvia Howard, Mary Rolland, Lorna Reeve, Doreen Wright, Della Thompson, Irene Thompson, Freda Thomas, Sonya Molofy, Sheila Slade and Diane Webb; Denton Holmes Nursing Division, No. 148C, Joan Anderson, Marlene Davies, Leslie Drysdale, Bernice O'Brien; Oak Bay Cadet Nursing Division, No. 176C, Kathleen Blane, Olivia Fisher, Linda Pearson, Nancy Mann, Barbara Miller and Beverly McLaughlin.

During the evening the following awards were presented by Mrs. Munday to members of Victoria Cadet Nursing Division, No. 61C: Grand Prior's badge, Noelle Hutton; life-saving medals, Mrs. Shirley Doyle, cadet officer, and Crusaders Miss E. Harrison and Mrs. D. Murphy.

Life-saving certificates, Betty Bone and Marilyn Jacobson; brigade medallions, Misses Mary Lou Findler, Helen Trowsdale, cadet officer E. Harrison, Mrs. D. Murphy and Mrs. D. Stuart. Label and pendant, Misses I. Pearce and Marion Ethell; five-year stripe, Frances Magee and Barbara Jenkins; four-year, Beverly Smith, L. Lifton and B. Lifton; three-year, Joy Hauser; two-year, L. Blin, P. Cornthwaite; one-year, S. Blin, T. Duncan, M. DeBett, F. Chamberlain, J. Chamberlain, E. Ciceri, S. Hauser, S. Howard, P. Perry, S. Pylpa and R. Phillips.

Mrs. J. Sampson, popular cadet superintendent, who is leaving for England the second week in May, was given a surprise presentation of a voucher entitling her to a seat on the Coronation route by members of Cadet Division, No. 61C, and Crusader Nursing Division, No. 254.

The meeting closed with a singsong and refreshments.

Plans Primrose Tea

Mrs. G. A. R. Stelck is co-convenor, with Mrs. Jack Gillespie, of arrangements for the tea to be held from 3 to 5 on Saturday.

Final arrangements for the Primrose Tea to be held at the Oak Bay Beach Hotel, Saturday afternoon, were made at a meeting of the women's committee, Victoria Symphony Society, in the Pemberton Road home of Mrs. F. D. Mara. Co-convenor, Mrs. Jack Gillespie, presented a report on this affair. Miss Joey Wilson was in the chair.

Mrs. Kenneth Crabtree, convenor of the recent rummage sale, reported that \$338 had been raised by this project. Mrs. Arthur Baker announced that a barn dance, originally planned for May, has been postponed until fall.

The committee's "plan of work" was read, discussed and amended; the main purpose of which is to create and extend active interest in the Victoria Symphony Orchestra. The annual meeting will be held on May 11 at the home of Mrs. Mara.

Mrs. D. B. Roxburgh, nominations convenor, is being assisted by Mesdames Arthur Baker, Roy Denny, J. D. Harbison and R. G. Nickolls.

Arrangements for the garden party in July, at "Arrow Farm," the home of Captain and Mrs. Massy Golden, were discussed. Miss Joey Wilson reported that the "Uncooked Recipe" Book is being assembled.

After the meeting refreshments were served.

Victoria Violinist Wed In Quiet Home Ceremony

Mary E. Davey, a well-known Victoria musician and violinist with the Victoria Symphony Orchestra, was a recent bride when a quiet home ceremony united her with Elbert D. Levitt, son of Mrs. E. M. Levitt, Shakespeare Street.

Bride is the daughter of Mrs. E. F. Anderson, 2800 Scott Street. The marriage, which took place in the home of Mr. and Mrs. R. Robertson, 1750 St. Anne Street, was celebrated by Padre G. Soutar. Spring flowers were used throughout the rooms and tall standard baskets of calla lilies and mauve iris flanked the fireplace. Music was supplied by Andy Anderson at the piano.

Given in marriage by H. L. Briggs, the bride wore a powder blue lace strapless model in ballerina length with matching jacket, featuring Elizabethan stand-up collar and three-quarter sleeves. A cap of fresh blue hyacinths centred with a gardenia held in place a shoulder length blue veil. She carried a white Bible topped with gardenias and showered with white satin streamers and pink rosebuds.

The single attendant was Mrs. Doreen Robertson in a similarly styled gown of a mauve orchid shade with cap of violets and carrying a colonial bouquet of violets, roses and gardenia. Marvin R. Levitt, brother of the groom, was best man.

Mrs. E. F. Anderson in black with white baby orchid corsage, and Mrs. Levitt in black with gardenia corsage, assisted in receiving guests at the reception which followed. R. Marconi sang "At Dawning."

The lace cloth covered table was centred with a wedding cake and spring flowers. Jack Mitchell proposed the toast to

Many Attend Laurier Club Daffodil Tea

More than 100 signed the guest book at a daffodil tea given by the new Lady Laurier Club of Oak Bay at the Beach Drive home of Mrs. Byron Johnson, Wednesday afternoon. Club president, Mrs. Harold Beckwith, received guests with Mrs. Johnson. Afternoon tea was served in the living room and dining room where full-length windows look out on a panoramic view of islands, sea and mountains. The tea table was decorated with a chaise longue green pottery bowl filled with yellow daffodils with frilled orange centres on a mirror and flanked by gold and green bird ornaments.

Presiding at the urns were Mrs. E. S. Farr, Mrs. E. L. McNiven, Mrs. J. L. Gates and Mrs. W. B. Millburn.

Tea tickets were in charge of Mrs. Harold Johnston and Mrs. J. Maltman; a raffle, Mrs. Geoffrey Ellis and Mrs. Beverly Smith.

Special guests included Mrs. Archie Gibbs, Mrs. Nancy Hodges, Mrs. E. T. Kenney, Mrs. D. J. Proudfoot, Mrs. W. T. Straith, Mrs. Arthur Ash, Mrs. R. B. Wilson, Mrs. Geoff Edgewood and Mrs. G. A. A. Hebden. General convenor was Mrs. George Gregory.

After spending two and a half months vacationing in Palm Springs, Calif., and Phoenix, Ariz., Mr. and Mrs. W. E. Stepey have returned to their home, 566 Beach Drive. Mr. and Mrs. Stepey made the return trip on the Holland-American vessel Diemerdyk, embarking at Los Angeles.

Society for Prevention of Cruelty to Animals, rummage sale, St. John's Anglican Church Hall, corner Mason and Quadra, Saturday at 10 a.m. Splendid selection of articles for sale including china, good clean used clothing and many other things.

Victoria Man Takes Bride In Ceremony at Chilliwack

A wedding of interest in Victoria took place recently in St. Thomas' Anglican Church, Chilliwack, when Elaine Marion Delisle, daughter of Mr. and Mrs. J. L. Delisle, Chilliwack, became the bride of Edward Thomas Bradley, son of Mr. and Mrs. W. T. Bradley, 2205 Lydia Street, Victoria.

The church was decorated with lilies, daffodils and spring bloom and guest pews were marked with white ribbons and posies. Rev. W. J. T. Clarke performed the double-ring ceremony and R. Rigby, church organist, played the wedding music. Soloist was Mrs. J. Wade. Lyle Henderson played piano selections at the reception.

A period gown of lace and satin was worn by the bride, who was given away by her father. Fashioned with a long bodice and lily point sleeves, the full skirt had a pannier hip-line and fell into a train.

A net veil cascaded from a wreath of orange blossoms to the edge of the train. Red roses and stephanotis were carried by the bride and she wore an heirloom necklace and pearl earrings.

Mrs. David B. Hinds, matron of honor, and Miss Lavinia Crane, bridesmaid, were gowned alike in lace and net full skirted, floor-length dresses with small boleros and elbow gloves to tone. Mrs. Hinds' gown was leaf green and Miss Crane's, daffodil-yellow. Matching coronets of flowers were worn and they carried cascade bouquets of Kokomo carnations and marguerites.

Flower girl was Miss P. Delisle, cousin of the bride, wearing pale mauve nylon net and taffeta colonial dress with matching headpiece, gloves and nosegay. Master Dennis Delisle was ring bearer in white flannels with black velvet jacket. The groom's best man was his brother, W. K. Bradley, and ushers were David B. Hinds and Thomas Konkin.

A reception was held at the Empress Hotel, Chilliwack, where Mrs. Edith Crawford and Mrs. William Grafton were in charge of the guest book. Bride's table was centred with a bowl of pink carnations, snapdragons and stephanotis. The wedding cake was set in tulle with roses entwined. Toast was proposed by M. E. Dickson.

The bride's traveling costume was a three-piece grey worsted dressmaker suit. With it she wore a green hat and alligator shoes and bag. The honeymoon will be spent in the States and on Vancouver Island.

Royal Bride Chapter, home cooking, stall, Saturday morning at Public Market.

Hoo-Lau-Lea for Cerebral Palsy Group in City

Sponsored by the Eileen School of Dancing, a Hoo-Lau-Lea will be held in the upper ballroom at the Crystal Garden on the evening of April 30 from 9.30 to 12.30. There will be a floor show featuring Bonnie Durby and baby hula dancers. Charlie Hunt's orchestra will be in attendance and there will be door prizes. Informality of this Hawaiian "Get-Together" Nite will be emphasized with a prize to be given to the man wearing the loudest shirt. Proceeds will be in aid of the Victoria clinic of the Cerebral Palsy Assn.

B.C. Music Festival Draws Local Groups

By AUDREY ST. D. JOHNSON
Many Victorians will be in Vancouver this week-end, participating in the B.C. Musical Festival which opened Tuesday and will continue until Thursday of next week.

S. J. Willis Junior High School band leaves today for the mainland and while in Vancouver the members will be guests of the Kitsilano Boys' Band.

The Victoria High School band and orchestra also will compete during Saturday sessions.

Only adult ensemble going from Victoria, as far as is known, is the Meistersingers, whose small number will be pitted against two large male voice choirs—the B.C. Electric Glee Club and the CPR Choir.

From Una Calvert's piano-forte studio, Lorraine Brand has

gone to compete in several classes; also Judith Andrews, who is entered in a sonatina class.

All these individuals and groups will also compete in the Victoria Musical Festival, which will open here on April 23 and continue until May 2.

The Victoria festival is rapidly catching up to the Vancouver event in point of size. This year, for the first time, the local entry list numbers more than 200, as against the mainland's 1,076 entries. There is a total of 227 classes listed in the Victoria syllabus.

Will Appear in Canada

At Canada's invitation, the London Festival Ballet Company will represent world ballet at Montreal's "Musical Day" festival in June. The British company will share spotlight with New York's Metropolitan Opera Company and the Boston Symphony Orchestra. Formed three years ago by Dr. Julian Braunschweig, the London ballet has won recognition in the leading ballet centres of Britain and Europe.

Principal dancers are ballerina Nathalie Leslie and premier danseur Anton Dolin, show in costume for the classic "Giselle." The company will also appear at Ottawa, Quebec, Hamilton and possibly Toronto.

Successful Farmer Needs Sympathetic Wife, Survey Shows

If a young man wants to be a successful farmer in British Columbia, he must be a mixture of a tireless worker and a high-powered business executive, and above all he must have a "sympathetic" wife.

This was the opinion Vancouver Island farm groups gave in a poll conducted in connection with a Canada-wide questionnaire sent to farm forums.

Island farmers said the young man "must like farm animals." If he doesn't, he should pack up and quit before it is too late, they said.

The farm groups all agreed that the attitude of a young farmer's wife might break or make a farm. "She can help him chiefly by sympathy and encouragement," they said.

Plans Advance For Dominion Drama Festival

In town this week was Mrs. Jessie Richardson, chairman of the British Columbia Regional Committee for the Dominion Drama Festival. Mrs. Richardson came from Vancouver to confer with the local DDF committee, with regard to plans, which are now well advanced, for the finals of the Drama Festival, opening in Victoria May 4.

Mrs. Richardson is co-operating closely with local committees who are going all out to make this the most outstanding and brilliant festival in the DDF's 14-year history.

Many Canadian cities have had the privilege of playing host to the finals in that time—Ottawa, London, Toronto, Saint John, Calgary—but this is the first time B.C. has entered the picture.

The local committee, which is headed by Judge J. B. Clearhue, the Community Drama Office and the regional committee in Vancouver, are determined that this will be an event that none of the visitors coming into the city will ever forget.

Casts from Montreal, Alberta and New Brunswick, with directors and crews, will arrive on Sunday, May 3, and plan to spend the entire week in Victoria.

Theatre Guild Changes Opening Date of 'Winslow Boy'

The Victoria Theatre Guild announces a change of date for the opening of "The Winslow Boy," its final production of the season. Curtain will rise on this production, directed by Miss Katherine B. Youdall, at 8-15 on Monday, April 27, instead of this Saturday, as previously advertised.

This decision has been occasioned through the Theatre Guild's desire to avoid clashing with the Gilbert and Sullivan Society's production of "The Merry Widow," which opens on Thursday next.

Seen in the part of the famous Winslow boy, will be Oak Bay High School student, John Sparks, winner of the best actor scholarship in the recent school drama festival. He will also be remembered for his part of the deaf-mute in "The Madwoman of Chaillot."

Bruce Banyard, Dr. Sloper in last year's production of "The Heiress; Cynthia Ross—last seen as a "madwoman"—Major Bellamy and Kenneth Bostock are also in the cast.

B.C. Hospital Employees Seek 40-Hour Week

VANCOUVER (CP) — The British Columbia Hospital Employees Federal Union (TLC) has set the 40-hour week in all B.C. hospitals it represents as its main objective in 1954.

Negotiations for 1954 contracts must be completed by November 30 this year to tie in with the provincial hospital budget. Talks usually open in early September.

The 40-hour week has been established in four Lower Mainland hospitals—Vancouver General and Grace, Royal Columbia in New Westminster and North Vancouver General.

The hospital workers convention will be held in Vancouver May 22-24.

Television Aerial Installation Held Key to Reception

Importance of aerial installation in improving television reception was emphasized Wednesday evening when Ralph Bykerk, chief engineer of Tele-Beam Industries, Napa, Calif., addressed 70 radio dealers and jobbers in the Knights of Pythias Hall.

His firm specializes in "tuning" antennas, both for set owners and telecasting stations. A specially-equipped airplane is used for the latter job.

Mr. Bykerk said improved reception from Tacoma could be expected in three or four months, as the video outlet there has ordered a new antenna which will improve the radiation pattern in the Victoria area.

Grande Prairie in the Peace River area was started about 1910 by settlers who covered the long "Edson Trail."

False Teeth Often Have a Certain Odor!

Soak your plates in Polident daily to avoid "Denture Breath"

Polident is the specially designed cleanser that keeps false teeth—and breath—clean and fresh always. Follow these simple rules:
1. Never use a brush on them! Your dental plates are much softer than natural teeth. Brushing wears down fitting ridges so they get loose.
2. Never use soap or toothpaste! They can leave film which collects bacteria and food particles, a major cause of offensive "Denture Breath."
3. Use a soaking-type cleanser made for false teeth only... Polident! Polident is the denture cleanser recommended by more dentists than any other. No brushing, no handling of soapy plates that can slip and break. Polident gets where a brush can't reach. Best of all, Polident always leaves false teeth odor-free. Get the world's largest selling denture cleanser, Polident, at your drug counter.

Meistersingers, Soloist, Win New Laurels

A gay, entertaining program that contained great musical merit was presented Wednesday night by the Meistersingers and assisting artists, under the auspices of the Victoria North Klwanis Club in S. J. Willis Junior High School.

Conductor Dudley Wickett's male voice ensemble is established on a high level of popularity, and judging from last night's reception, will have no difficulty in holding its position.

Theirs is so colorful and spirited a presentation, they sing all numbers with so much obvious enjoyment that the audience receives a bonus over and above the pleasure of hearing good songs well sung.

Guest artist was soprano Ruth Champion, whose delightful voice was heard in two groups. Betts and Her Buddies, and the quartet with Mr. Wickett as soloist, were also featured.

Sea shanties and spirituals were a highlight of this entertaining evening. The program ranged all the way from Bach to "Oklahoma." Accompanist was Maquima Anderson and Michael Francis acted as master of ceremonies.

SOLD AND INSTALLED BY

MODEL MORRIS CARS

Immediate delivery!

Powered with New Overhead Valve Engine

Good acceleration... superb hill climbing... exciting road performance... high cruising speed. Yes!... this brilliant new overhead valve engine gives you all this... the performance of a larger car... plus the irrefutable all-round operating economy of the world-famous MORRIS MINOR. You go farther and faster at much less cost.

And you'll travel as you've never travelled before in a small car... in supreme comfort... with absolute safety. Finger-light steering brings new ease... a new precision to driving. The torsion-bar independent front suspension smooths out the road bumps... lets you relax as you ride. We invite you to see and test drive this "Quality First" MORRIS MINOR for yourself.

MORRIS Minor

Now only \$1595 (with heater and defroster)

... and the "New Look"

of the famous MORRIS Oxford

Now, the MORRIS OXFORD is a better looking car than ever! Here's stylishness, a new impressive beauty that gets all heads turning to see the lines that tell so plainly of the quality beneath. Let a fact-proving demonstration run show you the pace-making performance you'll enjoy in the possession of this fine car. Feel the infallible security of superb road-holding at all speeds which only independent front suspension and perfectly balanced design can give. When you know all these features—and many more—for yourself, you will see why so many people are saying "This is a car of individuality—this is the car to buy!"

\$1995 (with heater and defroster)

SCHOOL TRUSTEES ESCAPE DILEMMA

Saanich Council Last to Approve
\$75,000 Building Fund Transfer

Saanich will put its stamp of approval on a transfer of \$75,000 from one school building account to another, thus enabling Greater Victoria School Board to pay its bills.

Reeve Joseph Casey said today the municipality would "go along" with Victoria, Oak Bay and Esquimalt. All must agree before the transfer can be made. It has been a point of controversy for weeks.

City Council sitting as a committee of the whole Thursday agreed to recommend to the next regular council meeting that a by-law to enable the transfer be authorized.

At the same time council rescinded an earlier motion that the city take no action owing to "uncertainty of the present financing in respect of schools."

ESTIMATES ERROR

The Oak Bay Junior High cost \$75,000 more than estimated but the Central Junior High contract price is less than the estimates.

Mayor Claude Harrison reported to council that the attorney general had no objections to the by-law requested by the school board.

Since February 21 the board has been paying interest on \$32,000 owing to Luney Bros. and Hamilton, contracting firm which built the Oak Bay Junior High, pending the transfer of funds.

Ald. Robert Macmillan was the sole opponent to the transfer at city council. He argued that the same problem could arise over Central Junior High and the city might be asked to authorize another

transfer if funds were over-expended.

COST IN DOUBT
Ald. Arthur Dowell contended Central would cost more than the contract price because of the extensive blasing which must be done.

City Solicitor Arthur Patton stated that in future under the new provincial Bill 94, school boards will finance new construction themselves and put their own money by-laws to ratepayers within the districts. Should the board overexpend on a school it will have to put another by-law to the people itself.

Ald. Macmillan said the city would still have to pay its share of costs.

**Japanese Say Troops
Threw Bomb Into Cafe**

QURE, Japan (AP) — Three Australian soldiers were held today after Japanese police accused them of throwing a hand grenade into a cabaret. The grenade, a kind used in manoeuvres, was loaded with a small charge of ordinary powder instead of the usual more powerful TNT.

TOWN CENTENNIAL
TRENTON, Ont. (CP) — An enthusiastic gathering here laid plans for centennial celebrations this summer to open with a volunteer church service on June 28 and wind up eight days later with a drumhead service.

Queen Christens New Royal Yacht

GLASGOW (Reuters) — The Queen launched her gleaming 416-foot yacht, Britannia Thursday and told a cheering crowd of 20,000 it would often serve as a home for her much travelled family.

Built at a cost of nearly \$5,000,000 at the Clyde-side yards here, the 4,000-ton Britannia is the first new yacht for the Royal Family in 54 years. Its construction was originally envisaged by the late King George VI.

The name Britannia for the sleek blue and white vessel, was a secret until Elizabeth, working a push button, broke a bottle of wine over its bow.

When the band's strains of

"Rule Britannia" died away, Elizabeth made a short speech. "The Britannia is not only the most modern addition to a long line of Royal yachts which goes back to the reign of King Charles II, but it is to be, at times, the home of my husband and myself and of our family."

She said a new Royal yacht had meant much to her father—the first monarch to be without one, since 1685—who had believed it "was a necessity and not a luxury for the head of our great British Commonwealth between whose countries the sea is not a barrier but the natural and indestructible highway."

The Duke of Edinburgh,

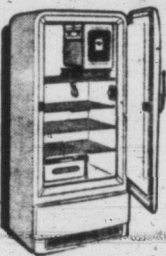

dressed in the uniform of an admiral of the fleet, stood near the Queen.

As George VI had planned, the Britannia is constructed for easy conversion to a hospital ship. The builders, John Brown's, also launched the crack Atlantic liners Queen Elizabeth and Queen Mary.

The Britannia is capable of continuous cruising at 21 knots and is fitted with radar and a water-distilling plant. Her lines are those of a modified cruiser, 55 feet wide across the beam.

Since Charles II amassed his personal fleet of 28 vessels, the tradition of the Royal yacht has grown. Queen Victoria had

Important gasoline savings!

The Thrilling New 1953 "Two-Ten" 2-Door Sedan

**You go much farther on every gallon
of gas in this great new Chevrolet...
and you save on over-all operation and upkeep, too!**

Now — as owners of new 1953 Chevrolets are discovering — you get even more miles per gallon of gasoline, save money! every mile you drive!

Ask new Chevrolet owners about the substantial dollars and cents savings they enjoy. Ask them how this great new car squeezes extra miles from every gallon of gas — and regular gas at that!

For it is true beyond any question. The new 1953 Chevrolet brings you the most important gain in gasoline economy in Chevrolet's 40-year history!

Of course, there is a good, sound reason for this wonderful increase in economy. That

reason is Chevrolet's new high-compression power. The new 115-h.p. "Blue-Flame" engine in Powerglide* models is the most powerful engine in its field, with a compression ratio of 7.5 to 1. And there's a new "Thrift-King" engine in gearshift models — 108-h.p. with 7.1 to 1 compression ratio.

Both engines bring you new economy, with a remarkable increase in power and performance, as well. Yet, with all its advantages, Chevrolet for 1953 is the lowest-priced line in its field. See it at your Chevrolet dealer's.

*Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine available in "Two-Ten" and Bel Air models at extra cost.

New Fashion-First Bodies by Fisher... new, richer and roomier interiors... wide choice of body-types and color harmonies... new 115-h.p. "Blue-Flame" high-compression engine in Powerglide* models... a new 108-h.p. "Thrift-King" high-compression engine in gearshift models... entirely new economy with important savings in gasoline and upkeep... entirely new Powerglide* with faster getaway, more miles per gallon... entirely new Power Steering (optional at extra cost)... softer, smoother Knee-Action Ride... more weight — more stability — more road-steadiness... improved Velvet-Pressure Jumbo-Drum Brakes... "Shade-Lite" Glass (optional at extra cost).

(Continuation of standard equipment and trim illustrated is dependent on availability of material.)

CLUES DOWN:

Dozen Crashes Harry Police

Collisions Come 12-a-Time
As Rain Makes Roads Slippery

Oak Bay Junction was the major trouble spot as harried city traffic officers were kept busy from 3:05 p.m. to 7:30 p.m. Thursday attending a dozen collisions.

Little Peter Ninth Victim Of Mad Father

LAWRENCE, Mass. (BUP)—Authorities added a final, tragic postscript today to the mad killing spree of Peter Akulonis. The body of his son, Peter Jr., 10, was found Thursday on a bank of the Merrimack River. He was the ninth victim of his father's homicidal urge to wipe out his family.

Akulonis killed himself Wednesday after murdering his wife, another son, his mother, two brothers and two nephews. Young Peter was missing after the slaying, but police held hope he was alive when they found a note on Akulonis saying: "I love Peter best."

A conservation officer found the body of the blond boy Thursday on a river bank at Dracut, 15 miles from the Akulonis home in Lawrence. He had been shot through the head, apparently with the same .22 calibre rifle his father used to kill himself.

The father took Peter from his classes at school Wednesday after he already had killed some of his victims. Police believe he then killed Peter and drove to the river to dump the body in the underbrush.

Remanded on Bank Robbery Charge

PEACE RIVER, Alta. (BUP)—Henry A. Alexander, a 22-year-old Peace River valley homesteader, Thursday was remanded to April 24 when he appeared in police court charged with the daylight armed robbery of a bank 14 miles west of here.

The RCMP arrested Alfred in a coffee shop a few hours after he is alleged to have held up the Canadian Bank of Commerce branch in Grimshaw, and escaped with \$3,443 in cash. Police said they found the loot stuffed in his pockets.

GOODMAN'S ORIGINAL SWING BAND RETURNS TO CARNEGIE

NEW YORK (UP)—The Benny Goodman swing band that kept the nation jumping in the 1930's will make a re-appearance tonight in Carnegie Hall.

The concert will turn back the clock to the days when Goodman, now 43, reigned as "The King of Swing." He recruited as many members of his original band as possible for a cross-country tour.

Seven of the 14 members of the new band were in the old one. They are Teddy Wilson, piano; Gene Krupa, drums; Ziggy Elman, trumpet; Vernon Brown, trombone; Georgie Auld and Clint Neagley, saxophone, and Helen Ward, vocalist.

Goodman said his band of swing might sound a bit old-fashioned to the modern generation of jazz lovers, but "I think people that knew this kind of music and listen to it again now will have a good feeling about it."

U.S. Firm Supports Westcoast at Hearing

Swing to Canadian Company Seen Break
In Hearing on Gas Import Licenses

WASHINGTON (AP)—Westcoast Transmission Co. apparently has become a front-runner in the race for licenses to pipe Canadian natural gas to the Pacific Northwest.

Prospects of the firm, which for several years has sought to bring Canadian gas to Washington and Oregon, brightened during a two-month power commission hearing on pipeline construction permit applications. The hearing was recessed Thursday until May 25.

FIRST BREAK
The first big break came Tuesday when Portland Gas & Coke Co. swung its support from Northwest Natural Gas Co. to Westcoast. The Oregon distributor pointed out that Northwest Natural has been unable to get a license to export Canadian gas and declared the Westcoast project is superior to one offered by Pacific Northwest Pipeline Co.

Westcoast proposes to pipe gas from the northern British Columbia and Alberta Peace River fields to Vancouver, B.C., Seattle, Tacoma and other western Washington cities, and Portland.

Pacific Northwest would build a pipeline from the San Juan basin field in Colorado and New Mexico to Bellingham, Wash., serving distributors in Colorado, Utah, Wyoming, Idaho, Oregon and Washington.

Northwest Natural purposes to pipe gas from Fort St. Vrain field in southern Alberta to the west coast.

Westcoast stock got another boost Thursday when the British Columbia Electric Co., distributors at Vancouver, announced it was for the Peace River project.

Then the United Gas Corporation of Washington, serving Camas and Washougal, came out for Westcoast. And an official of the Bellingham, Wash., Gas Co. telegraphed that about six Washington and Oregon distributors "undoubtedly would follow the lead of Portland Gas & Coke."

Many of these market areas had been claimed by Pacific Northwest Co.

King Carol Dies
Without Leaving Will

LISBON, Portugal (UP)—Former King Carol of Romania died without leaving a will, his friends said today.

It was believed Carol had considerable money including interests in the Saco oil refinery, a Portuguese firm.

Carol's friends said his widow, Magda, would remain in Portugal for a while.

Howe Says New Grain Parley May Be Called

OTTAWA (BUP)—Trade Minister C. D. Howe says that if Britain fails to sign the new International Wheat Agreement a conference will have to be held early in August to reallocate sales quotas.

Howe again turned down an Opposition suggestion that he fly to the United Kingdom to try to persuade the British government to sign the new agreement.

He agreed that it is important to Canada that Britain subscribe to the agreement, but he said he knew of no new facts he could submit to the British government. The United Kingdom "will have to make its own decision," he said.

Howe told the Commons that if Britain signed the agreement, there would be total sales of 600 million bushels of wheat per year allocated under the agreement. Without Britain, the amount would be 400 million.

THREE MORE MIGS DOWNED

UN Soldiers Repulse Reds
On Six Strategic Hills

SEOUL, Korea (UP)—United Nations soldiers repulsed attacks by 1,000 Chinese Communists on six strategic hills today while in the air American Sabrejets shot down three more Russian-built MIGs.

The synchronized Chinese attacks were launched against Pork Chop Hill, White Horse Mountain and Jackson Heights.

On the way down the hill, the fleeing Reds tried to dig in under a withering Allied artillery shelling.

At least 30 Chinese were killed in a bloody six-hour assault on outpost Westview and savage battles took place on outposts Arsenal and Yoke, all in the Old Baldy sector.

South Korean troops withstood a four-hour Red onslaught on White Horse Hill and forced the Communists to back away. There were no details on the battle for Jackson Heights to the east, other than the Communists failed to take the position.

Friend Overcome In Attempt to Aid Gas Poison Victim

VANCOUVER (BUP)—Sixty-one-year-old Alex Farrell died Thursday night when overcome by gas fumes in his Vancouver dwelling.

Fire department officials said a friend, H. Jones, who discovered the body and turned off two gas jets, was also overcome by fumes escaping from the oven jet, which he had not noticed was open. Jones responded to treatment, however.

RCMP Search For 2 Trappers Missing in North

PEACE RIVER, Alta. (BUP)—An RCMP patrol was searching today for two missing trappers in the rugged Peace River country after finding the grim remains of a northland tragedy.

The patrol stumbled across the blackened ruins of a cabin in which they found the body of a man burned beyond recognition. The RCMP was trying to identify the body, believed to be that of a trapper.

The mounties were continuing their hunt for George Craig and Harold Sherris, who disappeared into the bush 35 miles east of here three weeks ago to check their trappings.

Defense Minister Denies Charge Canadian Troops Lack Ammunition

OTTAWA (CP)—Defense Minister Claxton says there is no evidence to support assertions that gunners of Canada's 25th Brigade in Korea can't rely on Red Chinese artillery because of ammunition shortages.

That was the reply he gave in the Commons Wednesday after Lt.-Col. Gordon Churchill, PC, Winnipeg South Centre, made the assertion.

Col. Churchill, who commanded the 1st Canadian Armored Regiment in northwest Europe in the last war, said the Canadians in Korea are "sitting tight—and taking it from the Chinese artillery"—and haven't enough ammunition for counter-fire. As a result, he said, casualties are high.

Mr. Claxton said there is no evidence to back such a claim. United Nations artillery fire in Korea was 10 times heavier than that of the Chinese and greater than the extremely high rates of fire in the First and Second World Wars.

No army ever has all the ammunition it wants, but the Canadians have the ammunition they need, the minister said. They were supplied through the Commonwealth Division and by the Americans and it would be impossible for Canada to set up separate supply lines.

The exchange came as the House discussed defenses for the third straight day. General discussion was concluded and members got down to an item-by-item study of the \$2,000,000,000 defense department will spend in the 1953-54 fiscal year. The study continues today.

OPERATORS DENY PROSPERITY

(Continued from Page 1)

"I am the highest paid man in the woods outside of company men and contract workers, receiving \$16.60 for eight hours work. For my \$16.60 I spend much of my time standing in spurs and a safety belt from 120 to 160 feet in the air at the top of a spar tree either topping the tree, hanging the rigging, or stripping the rigging from the tree.

"It cost my company thousands of dollars for every day that my 'side' does not produce, so it is up to me to do a fast job but do it securely so no one is hurt either while rigging up or logging later.

"It takes years of experience to learn my job. My expenses are heavy, because this work is very hard on clothing, and good clothing that will permit me to work comfortably in all kinds of weather is not cheap. My work also is dangerous, because one false move means I fall.

"If I am lucky I work nine months of the year. My pay works out to \$2.07 1/2 per hour. Carpenters earn \$2.10, printers make more than \$2.30 and plumbers earn from \$2.00 to \$2.10 and higher. I believe my request for a 15-cent increase is justified."

Operators too have something to say about the situation and feel concern over the effort required to match prices of other timber exporting nations.

Water Moccasin Victim 'Improving'

MONTREAL (CP)—A hospital spokesman said today Armand Couillard, 23-year-old carnival worker bitten Sunday by a deadly water moccasin, is improving steadily and should be released from hospital next week.

Couillard now is receiving small doses of ACTH, administered before a snake-bite serum was available.

Couillard was bitten on the hand while cleaning out the snake's cage and his arm swelled almost immediately to nearly four times its normal size.

U.K. BACKS U.S. CHALLENGE TO REDS

Churchill Lauds Eisenhower's Call for
Peace; Speech a 'Magnificent Statement'

GLASGOW (Reuters)—Prime Minister Churchill tonight wholeheartedly supported President Eisenhower's peace call to Russia.

In a speech to a mass meeting of Scottish Conservatives, Churchill welcomed the "massive and magnificent statement of our case by President Eisenhower, who has set forth the range of practical issues which divided the world."

Churchill added that Eisenhower had made public the resolve of the free nations, "headed and sustained by the great power of the United States," not to weaken their defensive measures until an honorable settlement was reached.

"But he had closed no door upon sincere efforts to reach true world peace by good faith and goodwill," he said.

AUGUSTA, Ga. (UP)—A White House spokesman revealed today that the administration is taking immediate action to drive home the peace "offensive" President Eisenhower launched Thursday.

He said cabinet officials and Republican congressional leaders will make a series of state-

ments in the next few weeks "to put the full force of the free world" behind the objectives the President outlined.

In Washington, informed sources said the campaign also would be designed to maintain the initiative in the cold war and at the same time convince

INFANT ESCAPES DEATH BY INCHES

Carriage Crushed When Home Collapses;
Screaming Mother, Child Escape by Window

A year-old baby escaped death by inches today when an Esquimalt home collapsed.

A carriage in which the baby was sleeping was crushed and twisted when a porch roof fell, but the infant was unharmed.

The near disaster saw the small home of Mrs. E. Burns, whose soldier husband is in Korea, fall sideways from its 60-year-old foundation. Sewer pipes were torn from the ground. The chimney toppled.

Another child, Sandra, 4, was playing in the front yard.

FELT A SHUDDER

"I was on the phone when I felt the house shudder," said Mrs. Burns. "A second later the whole house fell. I remember screaming and fighting with the front door to reach my baby."

"The door was jammed, but somehow I forced it open and found Stephen. He wasn't scratched. The carriage was tipped over though and crushed."

Painter, McColl Gain Empress Golf Final

Men's champion of the 23rd annual Empress golf tournament will definitely be a Victorian this year.

Bill McColl and Vic Painter, both members of Colwood Golf and Country Club, advanced to Saturday's championship final today when they scored identical 147 in the semi-finals at Victoria Golf Club.

Painter defeated J. W. Kendall of Portland, while McColl eliminated C. M. Royal of Seattle.

McColl and Royal were all square at the end of 17 holes, but McColl won the match when he shot a par four.

McColl was on the green in two and was down in two putts for a four.

Royal's second shot hit a trap on the side of the green but he blasted out to within five feet of the pin. However, he missed the putt that would have given him a half and extended the match.

Painter and Kendall were also tied going into the 18th, but Painter holed a long putt for a birdie three to win the match and gain the final.

Women's semi-final scores had not been posted at press time.

BULLETINS

New Murder Clues

VANCOUVER (CP)—Detectives are busy today tracking down new leads in the Stanley Park skeletons case. The clues came from five citizens following publication Wednesday of pictures of clothing similar to that worn by the boy and girl murder victims. Two of the leads are considered "good" clues, police said.

Burnaby Fire

BURNABY, B.C. (CP)—A fast-moving fire swept through the Dodd Furniture Manufacturing Co. plant here today.

Owner William Dodd said furniture in various stages of construction valued at \$30,000 was in the plant. The actual loss could not immediately be determined, he said.

K. W. BROWN

... described bandits.

ERNIE PETERSON

Police Set Up Dragnet For Bandits; Loot \$2,000

Three masked gunmen made a clean get-away after robbing the Oak Bay branch of the Bank of Commerce of about \$2,000 early this afternoon.

They ordered three bank employees and one customer to the floor while they scooped the money from a teller's cage drawer.

Their escape was made in a late-model car believed stolen. Bank manager K. W. Brown said the leader of the gang carried a sten-gun. The other two were armed with revolvers.

All three were described as being young, fairly short and stocky.

Dressed alike in blue coveralls, they had silk stockings pulled over their heads to distort their features.

They walked into the bank at 1.15 p.m. during a lunch-hour lull.

C. A. Bovey, 2310 Oak Bay Avenue, was the lone customer in the bank at the time.

Leader of the trio, waving a sten-gun, ordered him to lie down at the teller's wicket where he was standing.

Bank manager Brown was talking to Mr. Bovey at the time.

One of the bandits waved him toward the rear of the bank.

With two employees, he was ordered to "get down on the floor."

Employees are 22-year-old Arnold Peterson, of 929 Island Road, teller, and 24-year-old Ricki Syrett, 2885 Austin, book-keeper-stenographer.

One of the gunmen vaulted a counter to get to the rear of a teller's cage.

He cleaned out the cash drawer.

The two others went into the open vault.

They apparently tried the door of a safe inside.

Then one of them called out: "Okay, let's go."

The bandits walked calmly out of the bank to their waiting car.

Dropped Stolen Bills in Haste

As they reached the door, they increased their pace, and in their haste dropped a few of the bills they had stolen.

A \$5 bill was picked up minutes later by H. M. Barrie, grocery store operator at Fort and Richmond, who was passing.

The robbery did not take more than three minutes.

Bank is on the south side of Oak Bay Avenue between Hampshire and Monterey.

It is only a short distance and across the street from the Oak Bay police station.

Getaway car was described as being a late-model light green Chevrolet or Oldsmobile.

As the car sped east on Oak Bay Avenue, an Oak Bay policeman unaware of the robbery, watched from outside a Safeway store.

Off duty, Const. Charlie Bates was loading some groceries into his car.

Meanwhile, an unidentified passer-by had run to the police station to report the robbery.

Chase was started minutes later.

RCMP placed road blocks on out-of-town highways. All traffic was being checked.

Other Greater Victoria police departments were alerted.

Bank Manager Brown wasn't certain if all three robbers had guns but other witnesses said they were fully armed.

Said Mr. Brown: "It all happened so quickly it was difficult to take everything in. I think they all had guns but I only remember the sten gun pointing at us."

A nearby resident, Mrs. A. Fletcher, said she was almost knocked down as the men hurried to their car.

She was passing the bank when the trio emerged.

"I realized it must be a hold-up, they looked so funny," she said.

One of the men brushed her as he passed and "I nearly fainted," she said.

She went into the Safeway Store and asked employee Marc Nickels for a glass of water.

"She looked pretty white and I thought she had had a fall," he related.

"Then she told me the bank had been held up."

U.K. MARKET FRACTION OF LAST YEAR

Operators Deny Woods Industries Prosperous

This is the third and last in a series of articles giving perspective to the current IWA-management negotiations in the forest industries.

BY DON INGHAM
Times Staff Reporter

Denial that British Columbia's lumber industry is in prosperous times has been made by a spokesman for constant operators.

A statement was issued Thursday by John Billings, manager of Forest Industrial Relations Ltd., following preliminary contract talks with the International Woodworkers of America (IWA).

"The UK market is down to a fraction of what it was this time last year," he said on be-

half of the 160 operators F.I.R. represents.

"Order files are substantially lower and prices in all markets have declined steadily since the last negotiation, and are still dropping with no indication that the bottom has been reached."

Union negotiator, Carl Winn, said on the eve of the negotiations, which will get under way again Monday, that there should be no trouble in bargaining because "the lumber market is good and lumber firms have a heavy order file on hand."

Thursday's meeting was completed a little more than an hour, during which time the IWA negotiating team formally submitted demands for 32,000

woodworkers. The operators have not yet replied to the union demands and are not expected to for a couple of days at least.

The IWA is seeking an increase of 15 cents an hour, six additional paid statutory holidays for a total of nine loggers time to and from distant jobs, and union-shop security.

"The union feels its demands are justified, and are for no more than conditions enjoyed by other workers in the province. A hypothetical rigger in a coast logging camp might give the following answer if asked what he thought about the demands:

Political Pot

A record number of candidates will be in the field in the June 9 election. A minimum of 220 hopefuls are expected to tramp the uncertain election trails, compared to 211 in last June's election. To date, 57 candidates have been nominated. Social credit leads the pack with 21 candidates named, then CCF 14, PC 8, Liberal 6, LPP 5, Independents 2, and Labor 1.

About half the candidates already nominated by the four major parties are newcomers. The trend towards new faces has shown up markedly in the free enterprise parties.

New nominations: Veteran E. E. Winch, CCF, Burnaby, heading into his 21st legislative term; Anthony Arnold and Stanley White, Social Credit, Vancouver East; Arthur Brown, Liberal, Prince Rupert—beat out Jack McRae, former MLA; Douglas Wetmore, 27, Liberal, Rossland—Trail—succeeds former health and welfare minister Douglas Turnbull who has quit politics; Lands and Forests Minister R. E. Somers, Social Credit, Rossland-Trail.

The Christian Democrat Party will run at least 12 candidates in the election.

The organization is described as a "Christian, non-sectarian—but not a Roman Catholic—party."

The party's platform does not ask specifically for increased grants to separate schools, but stresses the cost of educating a child in "Christian or neutral" schools should be the same.

W. H. Ryan, registrar of voters, reminded Victorians today they need not check their names on the voters' list if they have been sent postcards informing them they are qualified to vote. "Some people have been going to registration centres to make sure they are on the list even after we've informed them by postcard they are registered," said Mr. Ryan. "This is unnecessary and a waste of time."

He said persons wanting to register should not go to the registrar of voters' office at 910 Gordon Street. They should go to their neighborhood registration centres located in business establishments. Addresses have been published in papers.

Mrs. May Campbell and William Caird, unsuccessful CCF candidates in Victoria last June, will allow their names to go before a party nominating convention April 27.

Colin Cameron, another candidate last year, is being pressed to seek election, but has given no decision yet.

Rev. Harry Francis, the Sacred MLA who resigned his seat to allow Finance Minister Einar Gundersen to try for election last November, has been nominated in Revelstoke riding.

Dr. Norman L. Goodwin of Sooke will allow his name to go before an Esquimalt Progressive Conservative nominating meeting soon to be called.

Police Nab 19th Dope-Ring Suspect

VANCOUVER, B.C. (UP)—The Royal Canadian Mounted Police today nabbed the 19th suspect in Canada's biggest roundup of dope peddlers. Police arrested Stephen Theohares, 27, of Vancouver, who was among a handful who escaped the roundup that saw 28 arrests Wednesday and Thursday.

Theohares appeared in court today for a one-week remand with the other suspects who were arrested on evidence supplied by an undercover agent known only as "Mountie X." The agent lived in Vancouver's underworld for two months as a drug addict.

The agent's name was expected to be disclosed with the unfolding of evidence at the trials of the suspects next week.

Baby Unscathed as Home Collapses

Baby Steven Burns (lower left), came close to death when the porch roof of his 510 Gore Street home crashed down on his carriage. He wasn't touched. Top picture shows earthquake-

result when 60-year-old house slid off foundations. The mangled baby carriage is pictured, still squeezed by the wreckage. Baby's mother is looking for new house. Father's in Korea.

INFANT ESCAPES DEATH BY INCHES

Carriage Crushed When Home Collapses; Screaming Mother, Child Escape by Window

A year-old baby escaped death by inches today when an Esquimalt home collapsed.

A carriage in which the baby was sleeping was crushed and twisted when a porch fell, but the infant was unharmed.

The near disaster saw the small home of Mrs. E. Burns, whose soldier husband is in Korea, fall sideways from its 60-year-old foundation. Sewer pipes were torn from the ground. The chimney toppled. Another child, Sandra, 4, was playing in the front yard.

FELT A SHUDDER

"I was on the phone when I felt the house shudder," said Mrs. Burns. "A second later the whole house fell. I remember screaming and fighting with the front door to reach my baby. 'The door was jammed... but somehow I forced it open and found Stephen. He wasn't scratched.'"

"The carriage was tipped over though and crushed," said the plucky young mother took her child in her arms and screamed through a window to three passing soldiers, telling them to help her find Sandra. Sandra was found safe by a neighbor.

The soldiers helped Mrs. Burns out through a kitchen window with the baby, then entered with a neighbor, R. Brophy, to extinguish a fire in the kitchen range.

A sister, Mrs. D. Mortimer, shared the home. Her husband too is in Korea. Mrs. Mortimer, an Eaton employee, was at work when the accident happened at 10:45 a.m.

Mrs. Burns feels that plumbing done by the landlord, F. Lawrence, may have precipitated the collapse. "He was working under the house just the other night," she added, "...banging the pipes pretty hard."

WIRE BRIEFS

Gromyko Going Home?

LONDON—Reports say Soviet Ambassador Andrei Gromyko is being called back to Moscow.

It's said Jacob Malik probably will succeed Gromyko as ambassador to Britain.

There also are reports that Georgi Zarbin, the Russian Ambassador to Washington, may likewise be replaced.

Malan London-Bound

CAPETOWN (UP)—Premier Daniel Malan and his wife will attend the Coronation.

During Malan's absence Lands Minister J. G. Strydom, widely regarded as the 79-year-old prime minister's successor, will be acting premier.

RAF Plans Polar Hop

LONDON (UP)—The British Air Ministry says student flyers of the Royal Air Force will make four flights over the North Pole next month from the Canadian Air Force base at Resolution Bay.

RCAF Injured Recover

LONDON (UP)—Six RCAF officers injured in an emergency landing in Germany early this month are all being out of danger, it was reported today.

TRAINED IN CRIME BY FATHER

15-Year-Old Admits Murdering Two Men

NEWARK, N.J. (UP)—Police filed murder charges today against a 15-year-old boy who confessed he killed two men in an Elizabeth, N.J., tavern during a holdup masterminded by his father.

Murder charges also were filed against the father, an ex-convict who trained his son in the arts of crime.

Michael Monahan, arrested earlier this week in an attempted robbery at Verona, N.J., shocked detectives Thursday night when he told calmly how he shot a bartender and a customer to death in the \$33 holdup of the Shamrock bar at Elizabeth last March 7.

The boy said his father, Eugene Monahan, 44, was acting as lookout in front of the tavern when he did the shooting.

Sebastian Weilandis, 63, bartender at the Shamrock, and William Biskin, 25, his only customer at the time of the hold-

up, apparently were shot in cold blood. Police said there were no signs they had put up a fight. There were no witnesses to the shootings, however.

Young Monahan, when he was arrested Tuesday at Verona, told startled authorities he and his father had committed 150 robberies in various New Jersey cities, most of them burglaries. The father was picked up later Tuesday and a large quantity of loot was found in their home.

The boy said his father, in Israel, music by German composers is unwelcome in Israel because of the Nazi ban on works by Jews.

Britain Backs U.S. Challenge to Russia

WORLD REACTION

(COMPILED FROM CP, AP DISPATCHES)

Western leaders were quick to comment today on President Eisenhower's challenge to Soviet Russia to prove its peaceful intentions to the world. Here are some of them:

OTTAWA (CP)—External Affairs Minister Pearson today described President Eisenhower's foreign-policy speech Thursday as "a very important statement indeed" and took the unusual step of reading parts of it into the Commons record.

LONDON (AP)—President Eisenhower's peace program heartened Western Europe today.

Many expressed doubts of Russia's reaction. But there also was a swelling tide of hope that the new rulers in the Kremlin might use this moment to relax the East-West conflict.

Top Western officials were unanimous in their praise of the speech.

LOUISIANA, secretary-general of the North Atlantic Treaty Organization, called it a "most important, most noble and most moving" speech.

FRENCH PREMIER RENE MAYER said Eisenhower had presented clearly the real aims of peace.

ITALY'S DE GASPERI described it as "honest and strong."

And halfway across the world, Richard Casey, Australia's external affairs minister, said it was most important contribution to the relaxation of international tension.

NEW DELHI (AP)—India's vice-president, a former ambassador to Moscow, has proposed that Russia abolish Soviet communism's international arm—the Cominform—as a sign of its peaceful intentions.

Canada's New Carrier To Cost \$70 Millions

OTTAWA (CP)—Canada may have to spend more than \$50,000,000 to equip her new aircraft carrier, Bonaventure, with aircraft and to maintain adequate reserves of planes on shore, Defense Minister Claxton estimated today.

He told the Commons that the carrier, being built in Britain, will require about 120 planes, including reserves, and that this type of aircraft cost about \$500,000 each.

The carrier, he estimated, will cost about \$20,000,000. Normally a ship of this kind would cost about \$35,000,000 at current-day prices, but Canada was getting the flat-top carrier because she ordered it when partly completed.

This price, of course, did not include aircraft, which will increase the price to more than \$70,000,000.

Brave British Girl Helps Rout Mau Mau

NAIROBI, Kenya (UP)—The courageous daughter of a British sportsman was credited by police today with driving off a gang of between 20 and 30 Mau Mau terrorists who had

sieged a white neighbor's farm. Josh Cleland-Scott, heading a force of loyal natives from her own farm, marched half a mile to rout the gang of raiders who, disguised as native police, had surrounded the house of a couple identified as Colonel and Mrs. Oulton.

The terrorists fled when Miss Cleland-Scott's force approached brandishing pangas (native knives) and sounding an African battle horn.

Allied spokesmen said the liaison groups probably would do little more than discuss the technical details of resuming full-scale armistice talks.

The agreement came less than 15 hours after the UN told the Reds it was ready to reopen the talks, providing the Reds do not stall on the over-all exchange of prisoners—the last big obstacle to an armistice.

Churchill Calls Speech 'Magnificent Statement'

GLASGOW (Reuters)—Prime Minister Churchill tonight wholeheartedly supported President Eisenhower's peace call to Russia.

In a speech to a mass meeting of Scottish Conservatives, Churchill welcomed the "massive and magnificent statement of our case by President Eisenhower, who has set forth the range of practical issues which divided the world."

Churchill added that Eisenhower had made public the resolve of the free nations, "headed and sustained by the great power of the United States," not to weaken their defensive measures until an honorable settlement was reached.

"But he had closed no door upon sincere efforts to reach true world peace by good faith and goodwill," he said.

AUGUSTA, Ga. (UP)—A White House spokesman revealed today that the administration is taking immediate action to drive home the peace "offensive" President Eisenhower launched Thursday.

He said cabinet officials and Republican congressional leaders will make a series of statements in the next few weeks "to put the full force of the free world" behind the objectives the President outlined.

In Washington, informed sources said the campaign also would be designed to maintain the initiative in the cold war and at the same time convince

Russia that the President's program is sincere, not merely propaganda.

Mr. Eisenhower challenged the Soviet Union Thursday to end the war in Korea, agree to disarmament, and unify Korea and Germany to prove its peaceful intentions.

He outlined the U.S. terms for a cold war truce in a major address before the American Society of Newspaper Editors. He was suffering from a "slight attack of food poisoning" at the time and went to bed as soon as he returned to national golf course cabin here Thursday night.

Terms Felt Too Much for Russia

Diplomats in Washington said these terms will be too much for Russia to swallow unless it genuinely wants world peace. They can't see the Communists giving up North Korea, East Germany and the satellites in eastern Europe but they refused to make any hard predictions, pending developments at world trouble spots.

These experts saw little evidence in the speech that would suggest a face-to-face meeting in the near future between the President and Russian Premier Georgi Malenkov. They said the address was aimed at "substance rather than procedure."

The White House spokesman said the United States was embarked on a "complete offensive" to put the President's declarations across throughout the free and Communist halves of the world. These were some of the highlights:

Voice of America—The president's words are being sent by the Voice of America to Soviet, satellite and free countries around the globe in 45 languages. Television films left the United States Thursday night by plane for use in Japan, Britain, The Netherlands, Italy, France, Germany, Mexico and some other western hemisphere countries.

Meantime, it was learned here that before the president made his ambitious peace and disarmament proposals Thursday, he talked over his plans in general terms with the GOP congressional leadership.

The free nations, particularly Great Britain and France, also received an advance look at the president's general terms, although they were not asked for comment or approval.

The first Soviet reaction came quickly. Moscow radio complained that Eisenhower had placed the blame for the international situation on Russian policy "though no facts were given to prove this."

'No Facts Given' Says Moscow

West European foreign offices and journalists noted, however, that the Soviet reaction was mild in tone, by usual Russian standards, and the Kremlin left itself plenty of room to manoeuvre.

The Liberal Manchester Guardian said editorially: "The President has been enabled to make this statement of policy by the death of Stalin and the signs—as yet imprecise—that the new Soviet government wishes to see a relaxation of the conflict between East and West."

"Without the hope that a relaxation can in fact be achieved the speech would ring some what hollow."

The London Star, also Liberal, said:

U.K. MARKET FRACTION OF LAST YEAR

Operators Deny Woods Industries Prosperous

This is the third and last in a series of articles giving perspective to the current IWA-management negotiations in the forest industries.

BY DON INGHAM
Times Staff Reporter

Denial that British Columbia's lumber industry is in prosperous times has been made by a spokesman for coastal operators.

A statement was issued Thursday by John Billings, manager of Forest Industrial Relations Ltd., following preliminary contract talks with the International Woodworkers of America (IWA).

"The UK market is down to a fraction of what it was this time last year," he said on behalf of the 160 operators F.I.R. represents.

"Order files are substantially lower and prices in all markets have declined steadily since the last negotiation, and are still dropping with no indication that the bottom has been reached."

Union negotiator Carl Winn said on the eve of the negotiations, which will get under way again Monday, that there should

be no trouble in bargaining because "the lumber market is good and lumber firms have a heavy order file on hand."

Thursday's meeting was completed in a little more than an hour, during which time the IWA negotiating team formally submitted demands for 32,000 woodworkers. The operators have not yet replied to the union demands and are not expected to for a couple of days at least.

The IWA is seeking an increase of 15 cents an hour, six additional paid statutory holidays for a total of nine, loggers' time to and from distant jobs, and union shop security.

The union feels its demands are justified, and are for no more than conditions enjoyed by other workers in the province. "A hypothetical rigger in a coast logging camp might give the following answer if asked what he thought about the demands:

PROGRESS AGAINST CANCER
TOLD IN WEEKEND SATURDAY

The fight against cancer, and what Canada is doing about it, is the subject of a full-length article in Weekend Picture Magazine in The Times Saturday.

In common with medical men of other countries, researchers in Canada are studying the cells which form life itself in their endeavor to find the remedy.

Canada had the world's first cobalt bombs to combat cancer—one of them now in Vancouver—and Weekend staff writer Jacqueline Moore tells what has been accomplished with them.

OL' VIC SAYS:

"Ike's speech proved one thing—y' kin no more kill man's hope than y' kin stop Spring flowers comin' up."

Secretly speakin' I'd rather be Wright than mayor.
